**Olympic Games** Jörg Krieger,2025-02-17 This provocative book makes the case for the complete removal of national symbolism in the Olympic Games Focusing on the case of national flags at the Olympic Games it explores the history of national symbols at the Olympics and asks what this issue can tell us about the politicisation of sport in the twenty first century Drawing on multi disciplinary research from history political science and sociology and exploring the link between historical processes and the experiences of individuals the book attempts to deconstruct the global sport system and its traditions It argues that the history of flags is essentially the history of nationalism itself impacted by power interests and by exploring the lesser known Olympic histories of athletes such as American boxer Oscar De La Hoya or those from the Faroe Islands the book explores the complex links between national symbolism and international sport It concludes with a controversial set of proposals for breaking those links including a new tradition that would symbolically lock up national flags as part of the opening ceremony of Olympic Games Thought provoking and concise this book is fascinating reading for anybody with an interest in the politics sociology history or governance of sport or in nationalism international organisations or the history of protest Hijacking the Runway Teri Agins,2014-10-09 A fascinating chronicle of how celebrity has inundated the world of fashion realigning the forces that drive both the styles we covet and the bottom lines of the biggest names in luxury apparel From Coco Chanel's iconic tweed suits to the miniskirt's surprising comeback in the late 1980s fashion houses reigned for decades as the arbiters of style and dictators of trends Hollywood stars have always furthered fashion's cause of seducing the masses into buying designers clothes acting as living billboards Now forced by the explosion of social media and the accelerating worship of fame red carpet celebrities are no longer content to just advertise and are putting their names on labels that reflect the image they or their stylists created Jessica Simpson Jennifer Lopez Sarah Jessica Parker Sean Combs and a host of pop sports and reality show stars of the moment are leveraging the power of their celebrity to become the face of their own fashion brands embracing lucrative contracts that keep their images on our screens and their hands on the wheel of a multi billion dollar industry And a few celebrities like the Olsen Twins and Victoria Beckham have gone all the way and reinvented themselves as bonafide designers Not all celebrities succeed but in an ever

more crowded and clamorous marketplace it's increasingly unlikely that any fashion brand will succeed without celebrity involvement even if designers like Michael Kors have to become celebrities themselves Agins charts this strange new terrain with wit and insight and an insider's access to the fascinating struggles of the bold type names and their jealousies insecurities and triumphs Everyone from industry insiders to fans of Project Runway and America's Next Top Model will want to read Agins's take on the glitter and stardust transforming the fashion industry and where it is likely to take us next
