Instagram Guide for Beginners and Dummies Mey Irtz, 2021-05-08 The ways in which we use social media are constantly changing and evolving While initially a place for users to share photos with their family and friends and post aesthetically pleasing updates for people to be able to see what is happening in their lives social media has increasingly become more integrated within consumer culture Social media platforms have become increasingly more geared towards driving engagement and generating ad revenue Some audiences who are primarily still using social media to connect and be social have been more resistant to this switch but others love this integration There are a plethora of ways to bridge this gap and encourage all types of audiences to engage willingly and happily with business accounts As everyone surely knows Instagram is one of the most popular photo sharing platforms on social media today According to Instagram's own data over 200 million users visit at least one business profile each day 60% of users say that they have discovered a new product on Instagram and one third of the stories that receive the most views are posted by businesses As with the social media market as a whole there has been a shift from Instagram being a social platform to it being a media platform that places emphasis on unique content creation as well as business and marketing

Influencer Marketing For Beginners Adrian Peck, 2020-10-13 The rise of social media has created alternative methods of advertising for companies Gone are the days where companies would reach their customers through newspapers or television commercials It is now more affordable to connect with customers through online channels such as social media platforms Companies have done an impressive job following their customers and establishing their brands within the same platforms that their customers enjoy However over the years there have been questions surrounding brand trust with many consumers challenging the authenticity of the message shared by brands There has been significant research compiled regarding customer sentiments on brand communication One of the main insights found was that customers trusted messages shared by their peers over messages shared by brands The assumption is that companies have an agenda to make profits but our peers seek to educate and empower us This key assumption is one of the driving forces which has led to the
