[Escape Emerald](#) [da 2](#) Bill H. Ritchie,2024-03-27 Disclosure This description was prompted and edited by Bill Ritchie in Microsoft's current Copilot, an AI text generator for the second volume of Bill H. Ritchie's two-part autobiography. We traverse the years from 1991 to 2023. Ritchie, a trailblazer in the art world, continues his life story. In the first book, he told how he embarked on a remarkable odyssey that defied convention and reshaped the art, craft, and design of fine art printmaking. At the tender age of 24, Ritchie secured a groundbreaking position, the youngest ever, in the vibrant city of Seattle. His appointment as a teaching artist in fine art printmaking at the University of Washington marked the beginning of a transformative chapter. But this was no ordinary academic journey. Ritchie's innovative spirit would soon set him apart as a maverick in academe. The traditional classroom was too confining for Ritchie. Driven by a hunger for exploration, he wove technology into his art courses in the 1980s. Bill Ritchie's experiments disrupted the staid printmaking department and shocked the UW School of Art. Forced to leave the stifling ivory towers by the 1990s, the emergence of electronic arts, opened with the Internet, and would extend the boundaries of printmaking. Ritchie's vision blurred the lines between historic creativity and cutting-edge technology, birthing a new era dating back to the Paleolithic era when printmaking was invented. Ritchie pushed the envelope. Printmaking was no longer confined to ink and paper; it now danced with video, performance, computer graphics, and games. His colleagues, patrons, and former students watched in awe, wondering at the audacity of his moves. Telling all, Ritchie weaves rich, detailed tales. In his printed books, he placed thousands of pictures to enliven the narrative, capturing moments shared with those who left their marks on his journey. QR codes link
