Thrive Ravi Bapna, Anindya Ghose, 2024-10-08 How AI can positively impact so many aspects of our daily lives from health and wellness to work education and home life Artificial intelligence AI is a powerful general purpose technology that is reshaping the modern economy but misperceptions about AI stand in the way of harnessing it for the betterment of humanity In Thrive Ravi Bapna and Anindya Ghose counter the backlash by showcasing how AI is positively influencing the aspects of our daily lives that we care about most our health and wellness relationships education the workplace and domestic life In the process the authors help explain the underlying technology and give people the agency they need to shape the debate around how we should regulate AI to maximize its benefits and minimize its risks Bringing over two decades of experience with cutting edge research consulting executive coaching and advising to bear on the subject Bapna and Ghose demystify the technology of AI itself They offer a novel House of AI framework that encompasses traditional analytics generative AI and fair and ethical deployment of AI Using examples from everyday life they showcase how the modern AI powered ecosystem fundamentally improves the emotional physical and material well being of regular people across the globe Thrive's mission is to educate the public about AI shape realistic expectations and foster informed discussions about a fast emerging AI shaped society

Thinking Like a Human David Weitzner, 2025-05-13 A bright and timely book that celebrates the value of the human mind AI is at the forefront of everyone's minds from students and artists to CEOs and service workers But what exactly is AI and how does it influence our everyday lives And more than that what does it mean for our future Is there a way for us to retain our humanness in a world ever reliant on tech This groundbreaking book argues that the key technology we use to make strategic political and ethical decisions is flawed As we race headlong into a future where we outsource all of our problem solving to artificial intelligence the greatest threat to humanity is not superintelligent machinery but a lack of trust in the power of our own minds This book offers a new way forward what Dr Weitzner calls artful intelligence a philosophy that celebrates our humanness and can help

each of us make better decisions and create a healthier relationship with the world around us In these pages the author walks us through how AI often fails and how that affects our lives But readers will also meet the rockstars inventors and business leaders who embody artful intelligence and are changing our world for the better in an era rampant with AI malpractice while being taught how to do the same **The Canadian Abridgment** ,1966 *The Country Gentleman* ,1912
