It helps readers understand the positive impact of AI and where governance is needed from both an individual and business perspective. From childhood through to aging, this book delivers a holistic understanding of this exciting new technology in language that anyone can understand regardless of technical expertise. Written by Kay Firth-Butterfield, former inaugural Head of AI at the World Economic Forum and one of the most foremost experts in the world on the governance of AI, topics explored in this book include: An explanation of AI and Chatbots and their dependence on data; How to use AI wisely in business with your children and in your life; How AI might be used in politics and war; The good, bad and ugly of AI now and into the future; AI's potential to solve some of humanity's biggest problems from human trafficking to disease; Essential governance considerations to make AI a beneficial technological development for all. *Coexisting With AI* earns a well-deserved spot on the bookshelves of all individuals from tech executives to curious citizens seeking expert insight on where AI can take us and how to plot the best path forward for your family and business. **Contemporary**

Debates in the Ethics of Artificial Intelligence Sven Nyholm, Atoosa Kasirzadeh, John Zerilli, 2026-01-21 A cutting edge selection of current issues and explorations of the ethics of artificial intelligence. As artificial intelligence continues to influence virtually every facet of modern life, *Contemporary Debates in the Ethics of Artificial Intelligence* offers a timely and rigorous examination of the field's most pressing questions. Equally useful in the classroom or as a reference for interdisciplinary research, this volume fosters informed and critical engagement with the ethical dimensions of artificial intelligence in today's world. Curated by renowned scholars Sven Nyholm, Atoosa Kasirzadeh, and John Zerilli, *Contemporary Debates in the Ethics of Artificial Intelligence* brings together a dynamic mix of established leaders and emerging voices from both philosophy and computer science. The result is a uniquely structured collection of debates that not only introduces key concepts such as agency, moral status, and value alignment but also challenges readers to engage deeply with controversies around bias, transparency, and the societal risks posed by AI technologies. Providing frameworks for engaging responsibly with current and future AI technologies, *Contemporary Debates in the Ethics of Artificial Intelligence* presents a dual perspective debate format that fosters critical thinking and comparative analysis. Includes both foundational conceptual discussions and cutting edge applied ethical issues. Features original contributions from interdisciplinary experts in philosophy, law, cognitive science, and computer science. Addresses timely topics such as algorithmic bias, opacity, value alignment, and the moral status of AI. Explores forward-looking concerns including the future of AI governance and long-term existential risks. *Contemporary Debates in the Ethics of Artificial Intelligence* is ideal for undergraduate, advanced undergraduate, and graduate level courses in philosophy, computer science, public policy, and related disciplines.
