Ethical Artificial Intelligence from Popular to Cognitive Science Jordan Richard Schoenherr,2022-06-24 This book offers a unique interdisciplinary perspective on the ethics of artificial intelligence autonomous intelligent and connected systems or AISs applying principles of social cognition to understand the social and ethical issues associated with the creation adoption and implementation of AISs As humans become entangled in sociotechnical systems defined by human and artificial agents there is a pressing need to understand how trust is created used and abused Compounding the difficulty in answering these questions stakeholders directly or indirectly affected by these systems differ in their motivations understanding and values This volume provides a comprehensive resource to help stakeholders understand ethical issues of designing and implementing AISs using an ethical sensemaking approach Starting with the general technical affordances of AIS Dr Jordan Richard Schoenherr considers the features of system design relating data integrity selection and interpretation of algorithms and the evolution processes that drive AISs innovation as a sociotechnological system The poles of technophobia algorithmic aversion and technophilia algorithmic preference in the public perception of AISs are then described and considered against existing evidence including issues ranging from the displacement and re education needs of the human workforce the impact of use of technology on interpersonal accord and surveillance and cybersecurity Ethical frameworks that provide tools for evaluating the values and outcomes of AISs are then reviewed and how they can be aligned with ethical sensemaking processes identified by psychological science is explored Finally these disparate threads are brought together in a design framework Also including sections on policies and guideline gaming and social media and Eastern philosophical frameworks this is fascinating reading for students and academics in psychology computer science philosophy and related areas as well as professionals such as policy makers and those working with AI systems

Cultural Pressures and Mental Health Challenges in Gen Z's Digital World Hassan, Viana,Singh, Amrik,2025-11-10 The rise of influencer culture and constant digital connectivity has profoundly shaped how young people view themselves and the world around them For Generation Z growing up immersed in curated online realities has intensified pressures around identity beauty success and authenticity often leading to heightened anxiety depression and self comparison Understanding these dynamics is crucial for addressing the broader mental health challenges facing today s youth and for fostering healthier digital environments Examining this intersection also sheds light on shifting cultural values and the long term societal implications of living in a world mediated by social platforms Cultural Pressures and Mental

Health Challenges in Gen Z's Digital World explores the intersection of digital culture influencer media and mental health among Generation Z. It reveals the hidden costs of constant connectivity from rising anxiety and depression to shifting cultural norms around authenticity, beauty, and success. Covering topics such as academic pressure, influencer marketing, and social media, this book is an excellent resource for educators, mental health professionals, researchers, academicians, and more.

Handbook of Youth Economy Mohamed Buheji, 2018-03-17 Understanding Youth Economy is becoming an essential need that is to be addressed on the level of organisations, communities, and countries due to the speed of technology that increased the generations gap. This new concept helps to illustrate ways for capitalizing on the youth potentials that would create a more stable socio economy. This first comprehensive Handbook of Youth Economy reviews all the sources and perspectives that set together a youth driven economy that is explained in five main parts. The handbook covers how to capture, create, and sustain youth economy. It is an innovative work that presents areas for deeper exploration to decision makers, economists, educators, researchers, practitioners, academics, social change advocates, and youth development mentors. Besides, it would be an eye opener for those who carry youth energy and spirit whatever their age or profession is. This work brings in exciting, curious studies that would clarify the influence of youth in different economies. Practically, the book covers the enablers followed by the motivators and the obstacles that might face any youth economy initiatives. All chapters present examples and stories that bring in solutions for better youth engagement while dealing with the youth psychology and exploring the different learning needs and styles that impact social development. The role of app generation, gamification, and artificial intelligence are analysed along with current and coming youth business models to show practically how would they change the way we live, survive, earn, and thrive.

After the Software Wars Keith Curtis, 2009 Computers are an advancement whose importance is comparable to the invention of the wheel or movable type. While computers and the Internet have already changed many aspects of our lives, we still live in the dark ages of computing because proprietary software is still the dominant model. One might say that the richest alchemist who ever lived is my former boss, Bill Gates. Oracle founder Larry Ellison and Google co-founders Sergey Brin and Larry Page are close behind. Human knowledge increasingly exists in digital form, so building new and better models requires the software to be improved. People can only share ideas when they also share the software to display and modify them. It is the expanded use of free software that will allow a greater ability for people to work together and increase the pace of progress. This book will demonstrate that a system where anyone can edit, share, and review the body of work will lead not just to something that works but eventually to the best that the world can achieve. With better cooperation among our scientists, robot-driven cars is just one of the many inventions that will arrive: pervasive robotics, artificial intelligence, and much faster progress in biology, all of which rely heavily on software. Publisher

Integrating Technology in Literacy Instruction Jodi Pilgrim, Sheri Vasinda, Peggy S. Lisenbee, 2025-03-21 In the second edition, this text has been updated to address changing literacies surrounding students

and the continued importance of effective communication using technology tools in K 12 classrooms Technology has the power and potential to transform teaching and learning in classrooms and to promote active learning interaction and engagement through readily available tools and applications While both technologies and research in literacy education rapidly evolve this book presents lasting frameworks for teachers to effectively evaluate and implement digital tools to enhance classroom literacies and learning Through the lens of Universal Design for Learning UDL this text equips educators to develop inclusive learning environments that support the needs and desires of all literacy learners through the integration of technology and literacy instruction This text presents a range of current models and frameworks including SAMR RAT PICRAT T3 TPACK TIPC and EMSCI The new edition of this book has been updated to include Alignment with ISTE standards in each chapter Updates from the 2024 UDL Guidelines 3 0 Updates from the most recent 2024 National Educational Technology Plan Updated technology applications including AI and its impact Tools for teaching through remote and distance learning Each chapter includes prompts for reflection and discussion to encourage readers to consider ways literacy and technology can enable teachers to become agents of change This book will be especially beneficial for pre service undergraduate and graduate teacher candidates as well as ISTE certified educators and those seeking certification

Revolutionizing English Education Clarice M. Moran, 2024-04-30 Artificial Intelligence or AI has seemingly burst into public consciousness with sudden vigor Previously relinquished to computer science journals it erupted as the unrelenting topic of public media with most of the furor surrounding chatbots like ChatGPT Although many educators began worrying about the implications of AI in student learning and creative activity this book will demonstrate that AI can be harnessed as a source of inspiration and meaningful instruction With an emphasis on useful classroom strategies as well as a consideration of the ethics of AI this book seeks to start a conversation in this nascent area of research and practice The primary focus is on the use of AI in the secondary English classroom but educators in other disciplines will find plenty of ideas and information

An Inquirer's Guide to Ethics in AI Matthew S.W.

Silk,Ian J. MacDonald,2024-11-01 Pulling from ethics computer science philosophy of science and history this book offers a series of investigative tools to enable readers to establish interdisciplinary connections and explore ethical issues involving artificial intelligence Covering broad themes including democracy and the moral responsibility of scientists the text also delves into specific topics such as modelling bias risk assessment privacy epistemic concerns the application of AI to medicine the uses of generative AI for writing and art and the impact that AI can have on human behavior Throughout the book the application of various ethical theories and investigative tools are modelled for students helping them to become thoughtful inquirers in the exciting and growing field of artificial intelligence

Art and AsiaPacific ,2009 **China welcomes you** Peter Pakesch,Kunsthaus Graz,2007 Edited by Peter Pakesch Foreword by Katrin Bucher Trantow

Engaging Audience M. Elizabeth Weiser,Brian Fehler,Angela Marta González,2009 This collection of essays about audience awareness from professionals in the English public relations and writing fields is based on the latest work of scholars Lisa Ede and Andrea Lunsford This collection builds upon Lisa Ede and Andrea Lunsford s groundbreaking work to examine the rhetorical concept of audience as it relates to twenty first century teaching and learning Editors M Elizabeth Weiser Brian M Fehler and Angela M Gonz lez bring together compositionists from the departments of English communications public relations and writing to offer insights that serve as a guide for incorporating audience awareness into the contemporary classroom Contributors engage in a dialogue with Ede and Lunsford s previously published essays Audience Addressed Audience Invoked The Role of Audience in Composition Theory and Pedagogy and Representing Audience Successful Discourse and Disciplinary Critique as well as their new essay Among the Audience On Audience in an Age of New Literacies written especially for this collection Through these engagements contributors offer insights on audience from divergent perspectives composition pedagogy new media studies service learning and professional writing diversity and rhetorical and literary theory that establish a third category in the addressed invoked binary an audience updated that takes various professional and cultural forms but is most evidently audience interacting

Editorials and Editorial-writing Robert Wilson Neal,1921 **Britannica Book of the Year** ,2012 *Modernisation of Chinese Culture* Jana S. Rošker,Nataša Vampelj Suhadolnik,2013 The editors are grateful to the Chiang Ching kuo Foundation for its generous support of their research work which enabled them to publish the present book The present book carefully maps the Chinese modernisation discourse highlighting its relationship to other similar discourses and situating it within historical

and theoretical contexts In contrast to the majority of recent discussions of a Chinese development model that tend to focus more on institutional than cultural factors and are more narrowly concerned with economic matters than overall social development the book offers several important focal points for many presently overlooked issues and dilemmas The multifaceted perspectives contained in this anthology are not limited to economic social and ecological issues but also include political and social functions of ideologies and cultural conditioned values representing the axial epistemological grounds of modern Chinese society 2011 was the 100th anniversary of the Xinhai Revolution The centennial is relevant not only in terms of state ideology but also plays a significant role within academic research into Chinese society and culture This historic turning point likewise represents the symbolic and concrete linkages and tensions between tradition and modernity progress and conservatism traditional values and the demands for adjustment to contemporary societies The book shows that Chinese transition from tradition to modernity cannot be understood in a framework of a unified general model of society but rather through a more complex insight into the interrelations among elements of physical environment social structure philosophy history and culture
