Four Battlegrounds Paul Scharre, 2023-02-28

An NPR 2023 Books We Love Pick One of the Next Big Idea Club s Must Read Books An invaluable primer to arguably the most important driver of change for our future

P W Singer author of *Burn In* An award winning defense expert tells the story of today s great power rivalry the struggle to control artificial intelligence A new industrial revolution has begun Like mechanization or electricity before it artificial intelligence will touch every aspect of our lives and cause profound disruptions in the balance of global power especially among the AI superpowers China the United States and Europe

Autonomous weapons expert Paul Scharre takes readers inside the fierce competition to develop and implement this game changing technology and dominate the future

Four Battlegrounds argues that four key elements define this struggle data computing power talent and institutions Data is a vital resource like coal or oil but it must be collected and refined Advanced computer chips are the essence of computing power control over chip supply chains grants leverage over rivals Talent is about people which country attracts the best researchers and most advanced technology companies The fourth battlefield is maybe the most critical the ultimate global leader in AI will have institutions that effectively incorporate AI into their economy society and especially their military Scharre s account surges with futuristic technology He explores the ways AI systems are already

discovering new strategies via millions of war game simulations developing combat tactics better than any human tracking billions of people using biometrics and subtly controlling information with secret algorithms He visits China's National Team of leading AI companies to show the chilling synergy between China's government private sector and surveillance state He interviews Pentagon leadership and tours U S Defense Department offices in Silicon Valley revealing deep tensions between the military and tech giants who control data chips and talent Yet he concludes that those tensions inherent to our democratic system create resilience and resistance to autocracy in the face of overwhelmingly powerful technology Engaging and direct Four Battlegrounds offers a vivid picture of how AI is transforming warfare global security and the future of human freedom and what it will take for democracies to remain at the forefront of the world order **Most Popular Web Sites** Lycos Development Group,1997-02 **Genius Weapons** Louis A. Del Monte,2018 A technology expert describes the ever increasing role of artificial intelligence in weapons development the ethical dilemmas these weapons pose and the potential threat to humanity Provided by publisher **Philosophy on the Internet** Prentice-Hall Staff,1998-06 Digital Content Marketing in the Global Environment. Evaluation of Global Companies in the Chemical Industry Matthias Hebben,2021-04-27 Master's Thesis from the year 2019 in the subject Business economics Business Management Corporate Governance grade 2.0 University of Applied Sciences Northwestern Switzerland language English abstract This Master thesis explores the phenomenon of Digital Content Marketing DCM by evaluating if content marketing and its tools have a positive impact on global companies in the chemical industry Rapid globalization and the development of new markets at an increasingly global scale have made DCM more important However global companies are facing new challenges like new technological developments and trends and a changing consumer landscape that requires new marketing approaches Strategies are required to overcome these challenges adopt DCM techniques and use current techniques to gain competitive advantages However there are still companies that have not included digital content in their marketing strategy Others have difficulties making their marketing content unique and powerful The main issue is often measuring the effectiveness of one's digital content to determine whether DCM has a positive impact *Wallaces Farmer* ,2020-10 *China's Foreign Policy Making* Yufan Hao,Lin Su,2005 Various domestic factors impact upon China's foreign policy making such as bureaucracy academics media and public opinion This stimulating book examines their increasing influence and focuses in particular on China's policy towards the United States exploring whether there has been an emergence of societal factors independent of the Communist Party that have begun to exert influence over the policy process It also debates questions such as how it will affect the ability of the Chinese government to frame and implement its policy towards the US and whether it has generated institutional arrangements in China for cooperation on issues such as trade human rights and Taiwan The book provides a better understanding of the role of societal forces in China's foreign policy making process **The Outlook** ,2002

Arguing A.I. Sam Williams,2002-01-22 In *Arguing A I* journalist Sam Williams charts both the history of artificial

intelligence from its scientific and philosophical roots and the history of the A I debate He examines how and why the tenor of the debate has changed over the last half decade in particular as scientists are struggling to take into account the latest breakthroughs in computer science information technology and human biology For every voice predicting machines like 2001 s HAL within the next twenty to thirty years others have emerged with more pessimistic forecasts From artificial intelligence s pioneers John McCarthy and Marvin Minsky to futurist authors Ray Kurzweil and Hans Moravec to software architects Bill Joy and Jaron Lanier Arguing A I introduces readers to the people participating in the current debate both proponents and critics of A I who are changing the way computers think and the way we think about computers **AI-Powered**

Recruitment and the Attitudes of German University Graduates Tobias Opifanti,2020-08-27 Bachelor Thesis from the year 2020 in the subject Leadership and Human Resources Recruiting grade 1 2 European School of Business Reutlingen language English abstract The purpose of this thesis is to investigate German graduate students attitudes towards AI powered recruitment Toward this end data were collected through a questionnaire that was e mailed to German university graduate students Businesses are becoming increasingly reliant on technology as globalization progresses New skills and knowledge are vital for organizations to be competitive making Human Resource Management HRM more important now than ever The application of advanced technology like Artificial Intelligence AI has gained significant attention in the recruitment process in recent years AI offers promising solutions for recruiters to increase cost and efficiency by taking over repetitive tasks such as screening CVs and conducting job interviews However little is known so far about how these solutions affect potential applicants attitudes particularly the attitudes of graduate students from German universities and whether they are willing to accept and make use of the new opportunities offered by AI The online questionnaire gathered data from a total of 456 different respondents However 50 respondents dropped out before completion and a further 36 respondents were not in line with the inclusion criteria These respondents needed to be excluded from the sample which resulted in a final sample size of n 370 individuals *In the Service of Young People?* Cecilia von Feilitzen,Ulla
