Podcasting in a Platform Age John L. Sullivan, 2024-01-25

Podcasting in a Platform Age explores the transition underway in podcasting by considering how the influx of legacy and new media interest in the medium is injecting professional and corporate logics into what had been largely an amateur media form. Many of the most high profile podcasts today however are produced by highly skilled media professionals some of whom are employees of media corporations. Legacy radio and new media platform giants like Google, Apple, Amazon and Spotify are also making big and expensive moves in the medium by acquiring content producers and hosting platforms. This book focuses on three major aspects of this transformation: formalization, professionalization and monetization. Through a close read of online and press discourse, analysis of podcasts themselves, participant observations at podcast trade shows and conventions and interviews with industry professionals and individual podcasters, John Sullivan outlines how the efforts of industry players to transform podcasting into a profitable medium are beginning to challenge the very definition of podcasting itself.

The Road Home Ai Wei, 2019-08-20 Jiefang is a boy who has a peculiar fascination with gunpowder and is gifted with a nose that can find it from miles away. Trouble follows when his father paints a picture of a war hero bomber below the portrait of Chairman Mao and is quickly labelled a Counter Revolutionary. Despite his loyal devotion to the Party, his father is taken away and Jiefang faces bullying from a clique of classmates. As the feud between them escalates, Jiefang's unexpected discovery of a bomb leads him to continue exploring his unusual affinity for gunpowder and what it means to truly be a hero.

Audio For Authors Joanna Penn, 2020-03-06 Do you want to create, publish and market your audiobooks? Are you ready to use podcasting to grow your author brand and reach more readers with your books? Audiobooks are the fastest growing segment in publishing with double digit growth in markets across the world. Podcasting has gone mainstream with listeners consuming audio on mobile phones and in car devices as well as through smart speakers. Advancements in voice technology continue to expand possibilities for audio creation and marketing. With such rapid growth in opportunity, how can you position your books in an increasingly voice first world? I've been podcasting for over a decade as well as narrating and producing my own audiobooks since 2014. I'm an avid consumer of audio content and I'm also experimenting with AI voice technologies. In this book, I'll share everything I know so you can position your books and your author brand for the next shift in reader behavior. You will discover:
