Contemporary Melbourne Architecture Joe Rollo, 1999 Rejecting the media's prevalent archispeak a passionate skyline watcher for The Age newspaper collects his accessible columns about recent architecture and design in Melbourne Photos feature designs innovatively extending the boundaries as well as those criticized as exemplifying lost aestheti Aardvark Doug Evans, 1997-01-01 Features the best Melbourne architecture of the last ten years referenced by area and architect Also included are professional profiles of the principals in the architectural practices represented and a representative bibliography of published material on the work of the practices A Critical History of Contemporary Architecture Dr Elie G Haddad, Asst Prof David Rifkind, Ms Sarah Deyong, 2014-03-28 This book provides a comprehensive critical overview of the developments in architecture from 1960 to 2010 The first section provides a presentation of major movements in architecture after 1960 and the second a geographic survey that covers a wide range of territories around the world This book not only reflects the different perspectives of its various authors but also charts a middle course between the aesthetic histories that examine architecture solely in terms of its formal aspects and the more ideological histories that subject it to a critique that often skirts the discussion of its formal aspects **Contemporary Architects** Muriel Emanuel, 2016-01-23 Aardvark, 1992 Contemporary Australian Architecture Graham Jahn, 1994 Traces the development of new ideas in Australian architecture since 1975 and documents 45 important buildings chosen because of the ideas they embody Houses offices churches and sports stadia designed by Australian architects or by Japanese or American architects working in Australia are included The presentation is lavish abundant color p *Designer Suburbs* Judith O'Callaghan, Charles Pickett, 2012-11-01 In the 1950s 60s and 70s architects like Harry Seidler Robin Boyd Ken Woolley Michael Dysart and Graeme Gunn applied their talents to project homes bringing high end design to the suburbs Backed by Pettit Sevitt Merchant Builders and other project builders architects created small deceptively simple houses which transformed the look of suburbia Today the distance between the architectural profession and suburban housing has never been greater with Australia's super sized energy guzzling project homes the biggest in the world With photographs by Max Dupain David Moore Wolfgang Sievers and Eric Sierins alongside original plans *Designer Suburbs* explores the relationship between architects builders and affordable housing since 1900 and the lessons we can learn from twentieth century designer suburbs Architecture and the Modern Hospital Julie Willis, Philip Goad, Cameron Logan, 2018-10-09 More than any other building type in the twentieth century the hospital was connected to transformations in the health of populations and expectations of lifespan From the scale of public health to the level of the individual the architecture of the modern hospital has reshaped knowledge about health and disease and perceptions of bodily integrity and security However the rich and genuinely global architectural history of these hospitals is poorly understood and largely forgotten This book explores the rapid evolution of hospital design in the twentieth century analysing the ways in which architects and other specialists reimagined the modern hospital It examines how the

vast expansion of medical institutions over the course of the century was enabled by new approaches to architectural design and it highlights the emerging political conviction that physical health would become the cornerstone of human welfare

Contemporary Architects Ann Lee Morgan, Colin Naylor, 1987 To strengthen the contemporary focus of this volume we have added about forty architects and have deleted some whose activity ceased before World War II In making these decisions we have been assisted by an Advisory Board As in the first volume we have continued to define the word architect very broadly so as to include planners theorists structural engineers and landscape architects whose work seems to be central to the enterprise of creating habitable spaces in our day Editor's note **Australian Architecture Now** Davina Jackson, Chris Johnson, 2000 Having just completed the most significant five year construction phase in the nation's history Australian architecture has moved into the world spotlight During the 1994-99 boom creative vigor was palpable confidence surged and the entire continent became endowed with a new sense of architectural independence Because it scans a diverse and momentary scene instead of recording a longer continuum of major achievements *Australian Architecture Now* is an unusual history book It presents two essays 21 case studies of outstanding public and domestic projects and in several brief chapters compares selected buildings according to similarities of either genre or style Close examination reveals surprising evidence that Australian architecture more often reflects the personal styles and attitudes of its creators than the poetic ideal of a unique sense of place Architects featured include Denton Corker Marshall Harry Seidler Gabriel Poole Rex Addison Peter Stutchbury Cox Sanderson Ness Nonda Katsalidis Sean Godsell Alexander Tzannes and more **APAIS 1991: Australian public affairs information service** , *History of the Modern Styles of Architecture* James Fergusson, 1902 Picturing Architecture Desley Luscombe, Anne Peden, 1992 This book presents a range of graphic images used in the production of Australian architecture It pictures perspective axonometric and orthogonal images and each is examined for its specific aesthetic qualities and the techniques and materials used in the production of final artwork To clarify the distinctive characteristics of the graphic images each is accompanied by a statement about the design written by the architect and where available photographs of the completed building The introductory text questions how the selected drawings might be seen to characterise a visibility of cultural production with regard to the present formation of our architectural profession This question opens two domains of analysis firstly the roles of the observer and artist architect in relation to the currency of visual codes and secondly the application to architectural production of visual codes from artistic media These domains of analysis issue further debate on the necessity of architectural drawing to fulfil the representational role of making comprehensible projected built form *Modern Buildings* George Alexander Thomas Middleton, 1907 Swatt | Miers The Images Publishing Group, Swatt | Miers Architects, 2017-03-01 This new monograph of the work of Bay Area based internationally acclaimed Swatt Miers Architects features 30 exciting new projects including 20 new homes covering the prolific decade between 2006 and 2016 This 10 year period has seen the work of Swatt Miers expand into different regions of

California including the Central Valley the Northern California wine country and Los Angeles different states including Hawaii and Colorado and other regions of the world including Canada India and Spain Designed from the inside out the constant threads that pervade the work include strong relationships of architecture to land open planning for informal living and dissolving the boundary between inside and outside all designed to be as beautiful to live in as to behold This volume showcases this firm s award winning projects and recent accomplishments in glorious full color and is replete with insightful and engaging commentary across the monograph s extraordinary collection of international works **Living the Modern** Claudia Perren,Kristien Ring,2007 Since the nineteen fifties a unique form of modern architecture has been developing in Australia a progressive modernism which involves the dynamic combination of tradition and transformation This catalogue accompanies the exhibition Living the Modern_Australian Architecture and analyzes this culture and environment specific architecture using its residential constructions as a basis for examination The scope of the book extends from detached family houses to high rise buildings Examples of early design from the post war period are explored in an introductory overview but the focus of the publication is directed towards a diverse mix of twenty five Australian architects For the last fifteen years they have been applying interpreting or reworking modernist approaches but despite fame in their homeland their outstanding and refreshing productions remain largely unheard of in Europe Including texts by Richard Blythe Philip Drew Philip Goad Gevork Hartoonian Tom Heneghan Hannah Lewi Elizabeth Musgrave Stephen Neille Claudia Perren Kristien Ring and Peter Wilson Book jacket *History of the modern styles of architecture, a sequel to The handbook of architecture* James Fergusson,1891 Contemporary Australian Landscape Design Elizabeth Mossop,2006
