Contested Adoptions Research Law Policy And Practice:

Contested Adoptions Murray Ryburn, 1994-01-01 This work considers adoption made after court proceedings which have been contested by birth families or guardians Such adoptions are growing as a percentage of all adoption orders Key recommendations of the White Paper on adoption are included and considered in the context of adoption practice *After Adoption* Janette Logan, Carole Smith, 2013-01-11 Few children nowadays are placed for adoption with no form of contact planned with birth relatives and it has become common professional practice to advocate direct rather than indirect contact Practice has outstripped evidence in this respect and not enough is known about how contact arrangements actually work out particularly for older children adopted from state care Such children have often experienced neglect and sometimes abuse and have frequently been adopted without parental agreement Based on research with a large number of adoptive parents children and birth relatives *After Adoption* considers the impact of direct post adoption contact on all concerned in such cases It also discusses the development of adoption policy and law particularly with regard to the legal and social consequences reviews the research evidence on adopted children's contact with their birth families explores through interviews participants feelings about adoption and direct contact their relationships with each other what hinders and what helps *After Adoption* challenges readers to re think the relationship between adoption and the possibility of direct post adoption contact and at the same time provides a comprehensive understanding of adoption issues It is a timely and valuable addition to the literature on adoption making a substantial contribution to policy and practice **Adoption, Family and the Paradox of Origins** S. Sales, 2012-01-25 It is now over 20 years since open adoption was first introduced but it remains a controversial and contested part of social work practice This innovative and far ranging book sets out to understand why the practice of keeping adopted children in touch with their kinship origins is still so questioned in contemporary adoption work Written by an experienced practitioner in the field this book applies for the first time Foucauldian methodology to analyze and understand adoption social work making it essential reading for a wide audience in the social sciences **Child Protection Assessment Following Serious Injuries to Infants** Peter Dale, Richard Green, Ron Fellows, 2005-12-13 This book is especially welcome because of the scholarship and thoughtfulness evident throughout Dr Peter Reder Child Psychiatrist London How do child protection professionals and courts make judgments on whether serious injuries to infants are due to abuse If injuries are considered to be the result of abuse in what circumstances can it be considered safe for the infant to return home *Child Protection Assessment Following Serious Injuries to Infants* is concerned with helping child protection professionals and courts make the right decisions and avoid errors that can have disastrous consequences for children and families Drawing upon the extensive clinical and research experience of the authors this authoritative text Reviews research on the causes of child abuse and problems in diagnosing abuse Examines the views of parents who consider that they have been wrongly accused of child abuse Draws specific attention to the need to assess potential for

change in families and considers in detail how this can be achieved Highlights skills issues that are necessary for undertaking appropriate assessments Identifies key factors that are indicative of reunification in some cases and factors that contraindicate reunification in others With its evidence based approach this book will be a valuable resource for all child protection professionals It will also be of use to health professionals legal professionals researchers lecturers and students of social work

'Race', Ethnicity and Adoption Derek Kirton, 2000 This important study provides a unique and comprehensive analysis of research into the development of adoption policy and practice regarding black and minority ethnic children in the care of local authorities I found this book intellectually stimulating and often provocative it does not make comfortable reading but in the final analysis the case for retaining a commitment to placing children in families which reflect their ethnicity is strongly made Felicity Collier the Director of British Agencies for Adoption and Fostering What are the needs of adopted minority ethnic children To what extent can white families meet these needs Should the emphasis on ethnic matching of children and families in adoption be relaxed This book reviews the long running and often fierce controversy surrounding the adoption of black and minority ethnic children either transracially into white families or into matched same race placements Through analysis of research and the writings of protagonists the core concepts namely the nature and salience of racial ethnic identity cultural heritage and dealing with racism are explored and located within broader debates on race and the family The history of the controversy is set out in terms of the competing paradigms offered by liberalism and black radicalism and more recent post structuralist influences The author argues the need to see adoption and especially that of black children as inherently political and contested While broadly supporting the case for same race adoption it is suggested that this must rest on acknowledgement of and engagement with social and psychological complexities rather than their suppression beneath doctrinaire formulae **Race Ethnicity and Adoption** sets the issues in the wider context of a multiracial society and its politics and will be of particular interest to social workers and child care professionals but will also appeal more widely to students of sociology and social and public policy
