Models of Contextual Theology Stephen B. Bevans, 2002 Stephen B Bevans's Models of Contextual Theology has become a staple in courses on theological method and as a handbook used by missionaries and other Christians concerned with the Christian tradition's understanding of itself in relation to culture First published in 1992 and now in its seventh printing in English with translations underway into Spanish Korean and Indonesian Bevans's book is a judicious examination of what the terms contextual theology and to contextualize mean In the revised and expanded edition Bevans adds a counter cultural model to the five presented in the first edition the translation the anthropological the praxis the synthetic and the transcendental model This means that readers will be introduced to the way in which figures such as Stanley Hauerwas John Milbank Lesslie Newbigin and occasionally Pope John Paul II need to be taken into account The author's revisions also incorporate suggestions made by reviewers to enhance the clarity of the original three chapters on the nature of contextual theology and the five models

Cultural Integration and the Gospel in Vietnamese Mission Theology KimSon Nguyen, 2019-11-14 Postcolonial Vietnam has an urgent need for contextualized theology of mission God Christ and the church that is rooted in indigenous cultural traditions and the dual Vietnamese spirit of resistance and assimilation Dr KimSon Nguyen navigates the religious cultural dimensions of Vietnamese spirituality and Daoism that have hindered the assimilation of the Christian faith in the Vietnamese context and explores a fresh approach to missiology in Vietnam Dr Nguyen draws upon his deep knowledge of Vietnamese evangelical history to analyze contextualization and mission theology in Vietnam He proposes an evangelical theology of God as a way the centrality of the Vietnamese home as the house of the Lord and ancestor veneration as a theological framework for an indigenous theology of the family Narrowing the gap between culturally removed evangelical missionary practice and widespread syncretistic spirituality in Vietnam Nguyen calls for a paradigm shift in Vietnamese mission theology that is both robustly evangelical and authentically Vietnamese

'Justification by Grace Alone' Facing Confucian Self-Cultivation Arne Redse, 2015-09-29 Chinese contexts as influenced by the religious moral philosophy of New Confucianism are characterized by the idea of becoming a sage through self cultivation For Christian theology with its emphasis on God's grace rather than on self cultivation Confucian teaching in this matter may appear as a problem Chinese Christian theology may ask How can the Christian doctrine of justification by grace alone be contextualized in Chinese contexts which are characterized by the contradicting idea of self cultivation Another question may be equally interesting for Christian theology in all contexts Which insights can be attained from an attempt at contextualizing the Christian doctrine of

justification to contexts influenced by New Confucianism In this book professor Arne Redse contributes to answering these questions **Solving the Immigrant Church Crisis** Ronald M. Rothenberg,2016-08 Solving the Immigrant Church Crisis The Biblical Solution of Parallel Ministry Acts 6 1 7 addresses the crisis of the immigrant church in which complex cultural and linguistic factors create a reticence on the part of immigrants to transfer financial and decision making authority to succeeding generations and this results in a culturally irrelevant ministry to those generations an exodus of believers from the church a spiritually immature remnant and an inability to reach the lost The thesis of this book is that parallel ministry based on Acts 6 1 7 is the biblical solution to the crisis in the immigrant church While there are at least two main aspects of this crisis a spiritual relational and an ecclesiastical aspect this book focuses on the ecclesiastical aspect of defining the biblical structure of church government Specifically this book is for immigrant churches primarily in the United States and offers them a biblical and practical solution to the problem plaguing them for over two centuries of how to minister effectively to the succeeding generations The God That the Poor Seek Rupen Das,2022-01-31 The assumption that

conversion looks the same regardless of culture or religious context is challenged by a growing number of missiologists both in the Majority World and in the West In this book Rupen Das explores the particularities of conversion for some of the world's poorest populations Sharing the stories of Syrian refugees and Indian slum dwellers Das positions their voices within a missiological framework of contextualization seeking to understand what attracts the marginalized to the gospel of Christ This book is filled with practical insights for those ministering to the world's poor in contexts of missions development or local outreach It also offers a powerful glimpse into the identity of the crucified God who knows human pain and does not turn his back on human suffering **A Survey of World Missions** Robin Hadaway,2020-05-01 Robin Hadaway presents a full survey of world missions addressing biblical theological and historical foundations as well as culture context philosophy and missions strategy **Wrestling with God in Context** M. P. Joseph,Po Ho Huang,Victor Hsu,2018-12-01 Shoki Coe was among the first to speak of contextualization in theology Coe argued that theology is not a reiteration of past formulas or doctrines but a response to the self disclosing initiative of the living God in history and human experience Yet he remains little known outside his native Taiwan Wrestling with God in Context introduces Coe's work and social vision and evaluates his contributions to the field of missiology and ecclesiology Eager to offer a creative and critical witness to Christian faith Coe worked tirelessly to liberate theology from its Western captivity and shaped a generation of theological reflection on God culture and history For thousands of students and church members around the world Shoki Coe was the spiritual father that guided their contextual theological pursuit to the living reality of God In order to reflect on his legacy the chapters in this volume including original essays from Stephen Bevans Dwight Hopkins and Enrique Dussel tackle the critical methodological issues related to doing theology reading the Scriptures and being the church *Appropriate Christianity* Charles H.

Kraft,2005 Appropriate Christianity consists of 28 chapters by 18 authors approaching contextualization in three dimensions

truth allegiance and spiritual power Over the years there have been quite a number of helpful discussions of the contextualization of theological truth Though we have been helped greatly by them it is high time we began to deal also with allegiance and spiritual power two additional dimensions that Jesus considered of great importance Any adequate and appropriate treatment of the contextualization of biblical Christianity needs to deal with all three of these 2 crucial dimensions 3 For allegiance to Christ is the basis for all we do that makes us Christian and Jesus was very much into spiritual power If we are to be truly biblical we must deal also with these areas The Contextualization of Cargo Cult Beliefs and the Christian Message in Irian Jaya, Indonesia Michael L.
