Jicheng Xie

Contingent Creatures A Reward Event Theory Of Motivation:

Contingent Creatures Carolyn R. Morillo, 1995-10-03 What motivates behavior What are the qualities of experience which make life worth living Taking a new interdisciplinary approach Morillo advances the theory that pleasure interpreted as a distinct separable noncognitive quality of experience is essential for all positive motivation and is the only intrinsic nonmoral good in the lives of human beings and many other sentient creatures Morillo supports her arguments with recent neuropsychological evidence concerning the role of reward centers in the brain and philosophical arguments for a naturalistic theory of value and the good life *Contingent Creatures* will interest philosophers psychologists and neurobiologists

Contingent Creatures Carolyn R. Morillo, 1995 What motivates behavior What are the qualities of experience which make life worth living Taking a new interdisciplinary approach Morillo advances the theory that pleasure interpreted as a distinct separable noncognitive quality of experience is essential for all positive motivation and is the only intrinsic nonmoral good in the lives of human beings and many other sentient creatures Morillo supports her arguments with recent neuropsychological evidence concerning the role of reward centers in the brain and philosophical arguments for a naturalistic theory of value and the good life *Contingent Creatures* will interest philosophers psychologists and neurobiologists

Evolutionary Psychology and the Propositional-attitudes Alex Walter, 2012-02-16 The two essays provide a critical examination of theory and research in the field of evolutionary psychology The view advanced here is that philosophical materialism and minimalist assumptions about adaptation serve Darwinian psychology better than the more popular alternative view that relies on cognitive dualism and propositional attitude psychology to formulate evolutionary psychology theory A commitment to cognitive dualism is destined to undermine the physical basis of behavior upon which evolutionary theory depends Many evolutionary psychologists do not see this but are seduced by the easy way in which hypotheses can be formulated using the propositional attitude model The challenge is to develop a materialistic and mechanistic approach to understanding human cognition and behavior including linguistic and social behavior *Darwinian*

Hedonism and the Epidemic of Unhealthy Behavior David M. Williams, 2019-03-21 Provides a new approach to psychological hedonism and applies it to the growing global epidemic of unhealthy behavior *Affective Determinants of Health Behavior*

David Michael Williams, Ryan E. Rhodes, Mark T. Conner, 2018 In the last 20 30 years research on affective determinants of health behavior has proliferated *Affective Determinants of Health Behavior* brings together this burgeoning area of research into a single volume and features contributions from leading experts in their respective areas Editors David M Williams Ryan E Rhodes and Mark T Conner and their contributing authors focus on a fascinating range of affective concepts including but not limited to hedonic response incidental affect perceived satisfaction anticipated affect affective attitudes and affective associations In the first part of the book the role of affective concepts in multiple theories of health behavior is highlighted and expanded including theories of action control dual processing temporal self regulation self determination and planned

behavior along with a new theory of hedonic motivation The second part of the book focuses on the role of affective concepts in specific health behavior domains including physical activity eating smoking substance use sex tanning blood donation the performance of health professionals cancer screenings and cancer control Affective Determinants of Health Behavior offers readers an important window into existing research and serves as a showcase for important insights on possible new directions and implications for intervention

Wanted, More than Human Intellectual Property Johanna Gibson, 2024-12-27 This book analyses animal creativity in order to unsettle the dominant assumptions that underpin current ideas of authorship and ownership in intellectual property Drawing upon theories of animal behaviour and cognitive ethology the book exposes and disrupts the anthropocentrism that informs prevailing assumptions about creativity intentionality and authorship within the field of intellectual property towards a new theory of authorship and personhood through play and the playful Moving on to challenge the invocation of a more general human nonhuman distinction in this context the book also engages the challenge to this distinction posed by artificial intelligence Incorporating critical animal studies behavioural science ethology critical legal studies and legal philosophy the book presents a new idea of creativity which undermines the kind of rivalrous models now common in the field of intellectual property This book will be of considerable interest to those studying and teaching in the area of intellectual property as well as in animal law It will also appeal to legal theorists and others working in the social sciences in the areas of posthumanism and animal studies

The Philosophical Review, 1996
The Journal of Philosophy, 1990 Covers topics in philosophy psychology and scientific methods Vols 31 include A Bibliography of philosophy 1933 Choice, 1995 **Human Motivation** B. Weiner, 2012-12-06 This book represents a major revision of my earlier work Theories of Motivation From Mechanism to Cognition A number of shortcomings in the previous book became increasingly evident to me First of all there were serious omissions Second there has been much new knowledge since the inception of the prior book so that it was becoming out dated And finally I was dissatisfied with some of the writing feeling that parts of the book were needlessly complex and that certain topics did not deserve the space that they were allotted A revision therefore was initiated I attempted to fill some of the gaps by including chapters on psychoanalytic social learning and humanistic theory Furthermore other topics that could have been discussed within the outline of Theories of Motivation but were neglected are incorporated into the present volume These topics include for example social facilitation arousal emotions personal responsibility and the irrationality of attributions In addition to this new material I updated the ideas examined in Theories of Motivation Little could be altered in the sections on Hullian and Lewinian theory for these conceptions are no longer undergoing modification The discussion of these theories was merely shortened and simplified bringing them more in line with their current influence in psychology But achievement and attribution theories have changed in the past years or at least our understanding in these areas has changed and discussion of these topics was greatly altered The British National Bibliography Arthur James Wells, 1996 International Bibliography of Book
