Anderson, 2014-03-05 A unified general theory of functional cognition is presented in this book Its generality appears in the titles of the 13 chapters listed below Its unity appears in the effectiveness of the same methods and concepts across all of these areas Generality and unity both stem from the foundation axiom of purposiveness The axiom of purposiveness has been made effective through capability for functional measurement of values which embody the goal directed character of purposiveness This measurement capability is based on the general cognitive algebra established in information integration theory Functional theory can thus be made precise and effective near the level of everyday phenomenology The book is written at a relatively simple level directed at readers in every field of psychology Among its characteristics are self sufficient theory near the level of everyday phenomenology foundation on structure of the internal world and solid grounding in experimental analysis      *Empirical Direction in Design and Analysis* Norman H. Anderson, 2001-07-01 The goal of Norman H. Anderson's new book is to help students develop skills of scientific inference To accomplish this he organized the book around the Experimental Pyramid six levels that represent a hierarchy of considerations in empirical investigation conceptual framework phenomena behavior measurement design and statistical inference To facilitate conceptual and empirical understanding Anderson de-emphasizes computational formulas and null hypothesis testing Other features include emphasis on visual inspection as a basic skill in experimental analysis to help students develop an intuitive appreciation of data patterns exercises that emphasize development of conceptual and empirical application of methods of design and analysis and de-emphasize formulas and calculations and heavier emphasis on confidence intervals than significance tests The book is intended for use in graduate level experimental design research methods or statistics courses in psychology education and
