Content Syndication With Rss:

Content Syndication with RSS Ben Hammersley,2003 Originally developed by Netscape in 1999 RSS which can stand for RDF Site Summary Rich Site Summary or Really Simple Syndication is an XML based format that allows web developers to describe and syndicate web site content Using RSS files allows developers to create a data feed that supplies headlines links and article summaries from a web site Other sites can then incorporate these elements into their pages automatically this text provides a comprehensive reference to the specifications and the tools that make syndication possible Back cover

RSS Feed Format Mia Wright,AI,2025-02-22 RSS Feed Format offers a deep dive into Really Simple Syndication RSS a vital technology for content syndication It explores how to structure and use RSS feeds effectively for content distribution and aggregation Did you know that RSS emerged in the late 1990s to combat information overload allowing users to subscribe to updates from preferred websites This book dissects the technical structure of RSS feeds explaining each element s function and examines different RSS specifications guiding you in selecting the right format for your needs The book s structure guides the reader from basic concepts to advanced applications beginning with the fundamental elements of RSS feeds and the role of XML Subsequent chapters compare RSS versions like RSS 0 91 and RSS 2 0 It then explores advanced topics including real world applications such as podcasting and news syndication providing practical examples This makes it a valuable resource for web developers content managers and marketers aiming to enhance their online presence and reach a broader audience through effective content management and distribution **Pro PHP XML and Web Services** Robert Richards,2007-02-05 Pro PHP XML and Web Services is the authoritative guide to using the XML features of PHP 5 and PHP 6 No other book covers XML and Web Services in PHP as deeply as this title The first four chapters introduce the core concepts of XML required for proficiency and will bring you up to speed on the terminology and key concepts you need to proceed with the rest of the book Next the book explores utilizing XML and Web Services with PHP5 Topics include DOM SimpleXML SAX xmlReader XSLT RDF RSS WDDX XML RPC REST SOAP and UDDI Author Robert Richards a major contributor to the PHP XML codebase is a leading expert in the PHP community In this book Richards covers all topics in depth blending theory with practical examples You ll find case studies for the most popular web services like Amazon Google eBay and Yahoo The book also covers XML capabilities demonstrated through informative examples in the PEAR libraries

Introduction to Video Search Engines David C. Gibbon,Zhu Liu,2008-09-20 The evolution of technology has set the stage for the rapid growth of the video Web broadband Internet access is ubiquitous and streaming media protocols systems and encoding standards are mature In addition to Web video delivery users can easily contribute content captured on low cost camera phones and other consumer products The media and entertainment industry no longer views these developments as a threat to their established business practices but as an opportunity to provide services for more viewers in a wider range of consumption contexts The emergence of IPTV and mobile video services offers unprecedented access to an ever growing

number of broadcast channels and provides the flexibility to deliver new more personalized video services Highly capable portable media players allow us to take this personalized content with us and to consume it even in places where the network does not reach Video search engines enable users to take advantage of these emerging video resources for a wide variety of applications including entertainment education and communications However the task of information extr tion from video for retrieval applications is challenging providing opp tunities for innovation This book aims to first describe the current state of video search engine technology and second to inform those with the req site technical skills of the opportunities to contribute to the development of this field Today s Web search engines have greatly improved the accessibility and therefore the value of the Web   Search Engine Optimization All-in-One For Dummies Bruce Clay,Susan Esparza,2012-01-18 A guide to search engine optimization provides information on keyword strategy SEO Web design creating content linking competitive positioning analyzying results and search marketing   Social Feed Reader - Specification of a Prototype Alrik Degenkolb,2009-07 Seminar paper from the year 2009 in the subject Computer Science Commercial Information Technology grade 2 0 Technical University of Chemnitz course term paper writing language English abstract Management of information is gaining rising importance in knowledge intensive projects Many information sources in the web provide feeds for easy accessibility While there are a variety of software tools for personal feed consumption collaborative approaches are still rare This research project focuses on the theoretical aspect of feeds and their technical background like Atom and RSS Furthermore it gives an overview about the historical development and intention of feeds and how it is used today It also provides an overview about related research projects and existing tools The paper concludes with an ideal social feed reader using common principles of social software like tagging social networking social recommendation and microblogging   **Digital Democracy: Concepts, Methodologies, Tools, and Applications** Management Association, Information Resources,2012-06-30 This book presents a vital compendium of research detailing the latest case studies architectures frameworks methodologies and research on Digital Democracy Provided by publisher   **The Open Mobile Alliance** Michael Brenner,Musa Unmehopa,2008-02-28 A practical overview of OMA specifications and how they enable mobile multimedia services much more The Open Mobile Alliance OMA is an industry forum which develops open specifications to help in the creation of applications and services to be deployed over converged networks The alliance is the leading industry forum for generating market driven specifications for interoperable mobile service enablers that facilitate global user adoptions of mobile multimedia services Members include traditional wireless industry segments such as mobile operators mobile operators e g AT T China Mobile Orange Sprint Nextel T Mobile Telefonica Vodafone equipment and mobile systems manufacturers e g Alcatel Lucent Ericsson Motorola Nokia Philips Samsung Siemens Sony Ericsson and Information Technology vendors e g BEA Systems IBM Microsoft Oracle Corporation Sun Microsystems and NEC Since its formation in 2002 the OMA has made significant progress in areas such as push to talk over cellular device management presence and
