Context Of Language Teaching:

Context and Culture in Language Teaching Claire Kramsch, 1993-06-17 This book takes cultural knowledge in language learning not only as a necessary aspect of communicative competence but as an educational objective in its own right. If the aim of foreign language education is to foster cross cultural awareness and self realization language pedagogy needs to come to grips with a range of fundamental issues: what do we mean by cultural context? Can discourse practices be taught like rules of grammar? What role does literature play in the development of second language literacy? How can learners acquire both an insider's and an outsider's understanding of the foreign culture as expressed through its language? By exploring these and other issues the book can help language teachers reflect on their profession and place it within its larger societal and educational context. In turn they can help learners become not only skilful users of the language but also active architects of a new cross cultural world order.

Context and Culture in Language Teaching and Learning Michael Byram, Peter Grundy, 2003 The chapters in this book all address the significance of the relationship between the aims and methods of language teaching and the contexts in which it takes place. Some consider the implications for the ways in which we research language teaching; others present the results of research and development work.

English Language Teaching in Its Social Context Christopher Candlin, Neil Mercer, 2001 English Language Teaching in its Social Context offers sociolinguistic, ethnographic and social psychological perspectives on TESOL teaching and learning and introduces the relevant literature on second language acquisition. Together with its companion volumes it presents English language teaching in a variety of specific institutional, geographic and cultural contexts. The articles, a range of seminal and specially commissioned pieces, have been carefully chosen to present four major principles of English language teaching: they focus on the roles played by teachers and learners; recognise the individuality of language learners; support teachers in the provision of active guidance for students learning; examine both positive and negative patterns of interaction between learners and teachers. This Reader offers people unfamiliar with research in this field an overall impression of English language teaching issues while allowing the more experienced reader the opportunity to relate his or her own experiences to the theories presented.

Context in Language Learning and Language Understanding Kirsten Malmkjær, John Williams, 1998-10-08 The papers in this volume represent varied views on the role of context in language learning.

Teaching Language in Context Alice Omaggio Hadley, 1993 Seeks to assist readers interested in classroom language learning in the process of clarifying their own beliefs about language teaching and learning.

Discourse and Context in Language Teaching Marianne Celce-Murcia, Elie Olshtain, 2000 Discourse and Context in Language Teaching: A Guide for Language Teachers is part of the Cambridge Handbooks for Language for Language Teachers series.

The Context of Language Teaching Jack C. Richards, 1985-04-26 This is an important collection of papers by a distinguished personality in the field. Topics covered include second language acquisition, syllabus design, methodology and methods, listening, speaking, vocabulary and

grammar Issues in applied linguistics are summarised and presented with clarity and their practical implications explored thus making the vital connection between theory and practice in language teaching Language teachers and students of applied linguistics will find this collection contains a wide range of recent work in linguistics presented in a lucid and highly accessible form

Understanding Context in Language Use and Teaching Éva Illés, 2020-05-06 This book is a guide to understanding and applying the essential heretofore elusive notion of context in language study and pedagogy va Ill s offers a new critical systematic theoretical framework then applies that framework to practical interactions and issues in communicative language teaching rooted in English as a Lingua Franca By linking theory and practice for research and teaching around the world this book brings a new awareness of how context can be conceptualised and related to language pedagogy to advanced students teachers teacher educators and researchers of language teaching applied linguistics and pragmatics

Teaching Language in Context Beverly Derewianka, Pauline Jones, 2016 Language is at the heart of the learning process We learn through language Our knowledge about the world is constructed in language the worlds of home and the community the worlds of school subjects the worlds of literature the worlds of the workplace and so on It is through language that we interact with others and build our identities Teachers explanations classroom discussions assessment of student achievement and students understanding composition and evaluation of texts are all mediated through language In this book the authors explore how an explicit understanding of how language works enables students to make informed choices in their use and understanding of texts Teaching Language in Context 2e is an introduction to the language that students encounter in the various curriculum areas as they move through the years of schooling and it will enable teachers to plan units of work that are sensitive to the language demands placed on students design activities with a language focus select texts for reading at an appropriate level analyse texts to identify relevant language and visual features create teaching materials that integrate an awareness of language help students to access meanings created through a variety of media written spoken visual multimodal provide explicit support in developing students writing and composing assess students written work extend students ability to articulate what they are learning In this second edition there is an increased emphasis on the multimodal nature of texts particularly the relationship between image and language and the place of visuals in supporting students to master the literacy demands of the curriculum The book also recognises the increasingly elaborate texts found in the more complex literacy tasks of upper primary and lower secondary classrooms

Contexts of Competence Margie Berns, 2013-06-29 The introduction of communicative competence as the goal of second and for eign language teaching has led to recognition of the role of context in language learning and use As communicative competence is defined by the social and cultural contexts in which it is used no single communicative competence can serve as the goal and model for all learners This recognition has had an impact on program design and materials development One significant change is that the choice of a teaching method is no longer the primary concern Instead the first step for the program

designer is becoming familiar with the social and cultural features of the context of the language being taught This includes a consideration of the uses speakers make of the language their reasons for using it and their attitudes toward it Contexts of Competence Social and Cultural Considerations in Communicative Language Teaching explores the relationship between context and competence from a theoretical and practical perspective Its audience is applied linguists in general and language teaching practitioners in particular The overall aim of its five chapters is to provide a framework for consideration of various contexts of language learning and use and to guide the implementation and development of models of communicative language teaching that are responsive to the context specific needs of learners The Handbook of

Language Teaching Michael H. Long, Catherine J. Doughty, 2011-08-15 Bringing together an international and interdisciplinary team of contributors this Handbook is a wide ranging and invaluable reference guide to language teaching A comprehensive reference work on language teaching which combines the latest research findings coverage of core topics and examples of teaching experience from a variety of languages and settings Provides a unique breadth of coverage including the psycholinguistic underpinnings of language learning social political and educational contexts program design materials writing and course design teaching and testing teacher education and assessment and evaluation Offers a balanced evaluation of the major positions and approaches including examining the increasingly important social and political context of language teaching Written by an international and interdisciplinary group of authors from a dozen different countries English is only one of the many languages used as examples throughout the volume **Understanding Language**

Classroom Contexts Martin Wedell, Angi Malderez, 2013-04-11 Arguably the whole point of education is to effect change in what people know and are able to do Globalization has contributed to a common perception worldwide of the need to introduce changes to the teaching and learning of languages The success of many attempts to do so has been limited by insufficient consideration of implementation contexts Understanding Language Classroom Contexts explores and illustrates how what happens in any language classroom is influenced by and can be an influence on the contexts in which it is situated A clear understanding of these influences is thus the starting point for planning effective change The book considers many visible and invisible features of the multiple layers of any context and provides a framework for understanding the types of factors that may influence whether changes planned by a teacher or externally initiated are likely to be successful The book will help teachers and educational managers or change planners outside the classroom to understand why their classrooms are as they are and so to make informed decisions about what can or cannot or not easily be changed and suggests how any changes might be appropriately managed Context of Language Teaching Jack C. Richards, 1989 *The Power of Context in Language Teaching and Learning* Jan Frodesen, Christine Holten, 2005 THE POWER OF CONTEXT IN LANGUAGE TEACHING AND LEARNING provides a highly accessible in depth study of the relationship between discourse and the context of language teaching and learning A tribute to Marianne Celce Murcia s groundbreaking and distinguished work this

text contains a strong combination of theory and practice that will benefit any language teacher or student

Teacher Learning in Language Teaching Donald Freeman, Jack C. Richards, 1996-02-23 This book introduces a new field of educational research called teacher learning as it applies to the teaching of languages Up until recently the study of second language teacher education has focused mainly on the knowledge base and specific skills needed for effective teaching This book invites us to look at teacher education from a fresh point of view through an exploration of the thinking and learning processes of individuals as they learn to teach Seventeen original articles based on studies done in North America Europe Asia and Australia provide examples of pioneering research into the ways that individuals learn to teach languages and the roles that previous experience social context and professional training play in the process The collection thus helps establish a research base for this newly developing field

The Role of Context in Language Teachers' Self Development and Motivation Amy S. Thompson, 2021-02-09 This book unpacks data from conversations with bi multilingual EFL teachers whose L1s are languages other than English and who are from understudied contexts Argentina Egypt Estonia Senegal Turkey Ukraine and Vietnam to provide insights into the formation of ideal teacher selves The author discusses the complexities surrounding the development of the teachers selves and motivation as well as their intertwinement with the sociopolitical realities of their individual contexts The work reveals how these realities and the specific social interactions that occur therein influence the language learning and teaching processes it also challenges the notions of and the need for a native non native speaker dichotomy in the field Expanding on Ushioda's 2009 person in context approach and reflecting on the multilingual settings of the teachers the integration of the context specific politics of language learning and teaching is a fresh approach to work in motivation

The Role of Context in Language Teachers' Self Development and Motivation Amy S. Thompson, 2021 This book unpacks data from conversations with bi multilingual EFL teachers to provide insights into the formation of ideal teacher selves The author discusses the complexities surrounding the development of the teachers selves and motivation as well as their intertwinement with the sociopolitical realities of their individual contexts

Methods and Methodologies for Language Teaching Andy Curtis, 2017-06-22 An essential guide for pre service and in service English language teachers There are countless theories and approaches to language teaching and with so many different methodologies available it can be difficult for teachers to weigh up the pros and cons of each or even to know where to start Written by an experienced teacher and researcher Methods and Methodologies for Language Teaching takes a fresh look at ten approaches to classroom language teaching and learning Each chapter includes suggested activities and further reading presenting the origins and key features of each methodology before discussing its relation to assessment and learning outcomes This is a clear concise and context driven introduction to teaching methods which reasserts the significance of methodology as a central pillar of language learning
