*Social Technologies for Inclusive Development:*

*Multilevel Policy and Practices* Kleinsy Bonilla, Susana Arrechea, Luis Guillermo Velásquez Pérez, Efraín Bámaca-López, 2025-05-15

Social technologies fostering inclusion represent a contemporary research paradigm that has resurfaced. Broader discussions aim to expand the scope of science technology and innovation beyond purely economic considerations into the social domain. Hernán Thomas suggests that innovative solutions encompass a broad spectrum of approaches for conceiving, constructing, implementing, and overseeing technological interventions tailored to address pressing social and environmental challenges. These solutions strive to stimulate the emergence of socially inclusive and sustainable economic dynamics in various areas including nutrition, housing, energy, clean water access, transportation, and communication. This multifaceted approach reflects a commitment to harnessing technology's potential for the betterment of society at large. This Research Topic focuses on showcasing experiences, strategies, and policies in science technology and innovation primarily in the context of Latin America. Such experiences, strategies, and policies aim to reduce social disparities and stimulate development. This article collection welcomes multifaceted approaches including comparative analysis, policy evaluations, community case studies, and more. Additionally, it engages with theoretical discussions on the influence of scientific and technological paradigms on public management, examining how these paradigms shape policy design, implementation, and technology integration. Furthermore, this Research Topic aims to explore recent technological advancements particularly in the realms of digital transformation and data-driven decision making as tools to forge new avenues for social inclusivity. By delving into these innovations, the collection aims to facilitate knowledge on innovative solutions, improve governance practices, and foster greater citizen involvement. Overall, this research initiative aims to contribute to the burgeoning literature on social technologies for social inclusion. It will critically assess the strengths and limitations of multilevel interventions, offering paradigmatic case studies and pinpointing unexplored opportunities within this field, thereby advancing our understanding and enhancing discourse in this critical area of study. The scope of this Research Topic revolves around the burgeoning field of social technologies and their nascent integration with public management and community engagement, specifically focusing on Latin America. We welcome a diverse range of manuscript types including original research articles, reviews, case studies, policy analyses, and theoretical perspectives. We aim to assemble a comprehensive collection of insights and experiences that shed light on the evolving landscape of social technology in Latin America and its implications for addressing contemporary global challenges. We invite contributions that delve into this dynamic intersection: social technologies and public management in Latin America, exploring themes such as innovative approaches to social technology adoption, the impact of digital transformation on local communities, practical strategies for fostering inclusive development, and the role of scientific diasporas in advancing these initiatives. Subtopics include but are not limited to the following: community-developed technologies, data production and data access, social technologies and health solutions, digital transformations, social technologies and inclusive development, the use of research metrics, or
