The Confessions of Saint Augustine Richard Severson,1996-11-25 The modern scholarly verdict about the Confessions has been nothing short of sensational This work documents the story of 20th century criticism and praise for Augustine s classic an ancient text that has grown in stature like few other Western classics Disciplines such as psychology literature and religion plus many others all claim it as their own The first chapter of this study puts modern Confessions scholarship into historical context The other chapters are devoted to autobiographical studies literary influences philosophical interpretations psychology spirituality and theological themes Of interest to scholars and students in many disciplines At the end of the 19th century a new critical spirit of inquiry and scholarship helped to change how we think about religious texts The new criticism uncovered problems with Augustine s Confessions he may have dramatized events concerning his conversion to Christianity for example Yet this work has proved to be relevant in the 20th century like few other ancient texts That such variegated attention has been devoted to it is testimony to Augustine s enduring legacy His stature in Western civilization is of the first order comparable to Homer and Virgil Plato and Aristotle Moses and Paul [A Reader's Companion to Augustine's Confessions](#) Kim Paffenroth,Robert Peter Kennedy,2003-01-01 This book is a tool for teaching and studying the great Christian classic Augustine s Confessions It is a unique venture in which thirteen different scholars look at each of the thirteen books in the Confessions and interpret their chapters in light of that book and in light of the rest of Augustine s work The result is that the richness and ambiguity of Augustine s work shines through as well as the richness and ambiguity of different readings of the Confessions **The Cambridge Companion to Augustine's "Confessions"** Tarmo Toom,2020-03-05 Presents the best scholarship on Augustine s Confessions which will facilitate a better understanding of this masterpiece [The Cambridge History of Philosophy in Late Antiquity](#) Lloyd P. Gerson,2015-12-10 The Cambridge History of Philosophy in Late Antiquity comprises over forty specially commissioned essays by experts on the philosophy of the period 200 800 CE Designed as a successor to The Cambridge History of Later Greek and Early Medieval Philosophy edited by A H Armstrong it takes into account some forty years of scholarship since the publication of that volume The contributors examine philosophy as it entered literature science and religion and offer new and extensive assessments of philosophers who until recently have been mostly ignored The volume also includes a complete digest of all philosophical works known to have been written during this period It will be an invaluable resource for all those interested in this rich and still emerging field *Character and Conversion in Autobiography* Patrick Riley,2004 Thinking of conversion as a radical turning point or fulcrum on which incompatible configurations of character are precariously balanced Riley examines both historically and tropologically the paradoxes of identity and life writing that conversion raises **The Confessions of Saint Augustine** Richard Severson,1996-11-25 The modern scholarly verdict about the Confessions has been nothing short of sensational This work documents the story of 20th century criticism and praise for Augustine s classic an ancient text that

has grown in stature like few other Western classics Disciplines such as psychology literature and religion plus many others all claim it as their own The first chapter of this study puts modern Confessions scholarship into historical context The other chapters are devoted to autobiographical studies literary influences philosophical interpretations psychology spirituality and theological themes Of interest to scholars and students in many disciplines At the end of the 19th century a new critical spirit of inquiry and scholarship helped to change how we think about religious texts The new criticism uncovered problems with Augustine's Confessions he may have dramatized events concerning his conversion to Christianity for example Yet this work has proved to be relevant in the 20th century like few other ancient texts That such variegated attention has been devoted to it is testimony to Augustine's enduring legacy His stature in Western civilization is of the first order comparable to Homer and Virgil Plato and Aristotle Moses and Paul

"You Made Us for Yourself" Jared Ortiz, 2016-05-19 Augustine's Confessions is probably the most commented upon text of early Christianity Yet there is a general consensus that this justly famous work is neither well composed nor structurally unified You Made Us for Yourself aims to challenge this common notion by approaching the Confessions in light of what Augustine himself would have considered most fundamental creation understood in a broad sense Creation for Augustine is an epiphany a light that reveals who God is and who human beings are It is not merely one doctrine or theme among others but is the foundational context which illumines all doctrines and all themes Moreover creation for Augustine is dynamically ordered toward the church toward the deified destiny the body of Christ both is and brings about Thus the Confessions itself can be understood as Augustine's prayer of praise in thanksgiving for the unmerited gift of creation and re creation It is his self gift back to God a kind of eucharistic offering intended to take up and bring about the same in his readers Augustine's rich understanding of creation then can account for the often despaired of meaning structure and unity of the Confessions

Augustine and his Critics Robert Dodaro, George Lawless, 2005-07-28 Augustine of Hippo AD 354 430 is arguably the most controversial Christian thinker in history His positions on philosophical and theological concerns have been the subjects of intense scrutiny and criticism from his lifetime to the present Augustine and his Critics gathers twelve specialists responses to modern criticisms of his thought covering personal and religious freedom the self and God sexuality gender and the body spirituality asceticism cultural studies and politics Stimulating and insightful the collection offers forceful arguments for neglected historical philosophical and theological perspectives which are behind some of Augustine's most unpopular convictions
