Conflict Among Nations Bargaining Decision Making And System Structure In International Crises:

Conflict Among Nations Glenn Herald Snyder, Paul Diesing, 2015-03-08 How do nations act in a crisis This book seeks to answer that question both theoretically and historically It tests and synthesizes theories of political behavior by comparing them with the historical record The authors apply theories of bargaining game theory information processing decision making and international systems to case histories of sixteen crises that occurred during a seventy five year period The result is a revision and integration of diverse concepts and the development of a new empirical theory of international conflict Originally published in 1978 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Conflicts Among Nations Glenn H. Snyder, Paul Diesing, 1977 **Lyndon B. Johnson and the Politics of Arms Sales to Israel** Abraham Ben-Zvi, 2004-02-05 Lyndon B Johnson and the Politics of Arms Sales to Israel seeks to reconstruct and elucidate the processes behind the decisions made by the Johnson Administration during the years 1965 68 to sell Israel M 48 tanks A 4 Skyhawk planes and F 4 Phantom planes This examination is based on a distinction between three factions which competed for influence within Washington s high policy elite the traditionalists whose major representative was Secretary of State Dean Rusk the pragmatists whose most outspoken representative was Robert Komer of the National Security Council and the domestically oriented policymakers the central decision maker who quintessentially exemplifies this category being President Johnson This book is a sequel to John F Kennedy and the Politics of Arms Sales to Israel which examined the first arms deal between the US and Israel

Escalation Dynamics in Cyberspace Erica D. Lonergan, Shawn W. Lonergan, 2023 To what extent do cyberspace operations increase the risks of escalation between nation state rivals Scholars and practitioners have been concerned about cyber escalation for decades but the question remains hotly debated The issue is increasingly important for international politics as more states develop and employ offensive cyber capabilities and as the international system is increasingly characterized by emergent multipolarity In *Escalation Dynamics in Cyberspace* Erica D Lonergan and Shawn W Lonergan tackle this question head on presenting a comprehensive theory that explains the conditions under which cyber operations may lead to escalation In doing so they challenge long held assumptions about strategic interactions in cyberspace arguing that cyberspace is not as dangerous as the conventional wisdom might suggest In some cases cyber operations could even facilitate the de escalation of international crises To support their claims Lonergan and Lonergan test their theory against a range of in depth case studies including strategic interactions between the United States and key rivals a series of case studies of the role of cyber operations in international crises and plausible future scenarios involving cyber operations during

conflict They then apply their analytical insights to policymaking making the case that skepticism is warranted about the overall efficacy of employing cyber power for strategic ends By exploring the role of cyber operations in routine competition crises and warfighting Escalation Dynamics in Cyberspace presents nuanced insights about how cyberspace affects international politics

Crisis Diplomacy James L. Richardson,1994-09-29 Although much has been written on international crises the literature suffers from a lack of historical depth and a proliferation of competing theoretical frameworks Through case studies drawing on the rich historical experience of crisis diplomacy James Richardson offers an integrated analysis based on a critical assessment of the main theoretical approaches Due weight is given to systemic and structural factors but also to the specific historical factors of each case and to theories which do not presuppose rationality as well as those which do Crisis diplomacy the major political choices made by decision makers and their strategies judgments and misjudgments is found to play a crucial role in each of the case studies This broad historical inquiry is especially timely when the ending of the Cold War has removed the settled parameters within which the superpowers conducted their crisis diplomacy

How American Media Presents Crisis of Sino-US Relations Liu Wen,2020-10-25 Sino US relation that has great influence on international relations is considered as the most important bilateral relation in the world today by politicians and scholars from both of the two countries The development of Sino US relation has undergone twists and turns since the two countries established diplomatic relation Although China and America has developed cooperative relationship in various areas critical events resulted from conflicts happen from time to time Media that plays various roles including message transmitter public opinion shaper and problem solver during the two countries crisis is not only an important information channel for both the government and the people to learn about the crisis quickly but also undertakes certain diplomatic duties like indicating attitude explaining policy and setting agenda This book is an analysis of the features and laws of media coverage on critical events between China and America discussing their influence on public opinion of American people as well as the decision making progress of American government by study the related reports of New York Times since 1990 This book takes some China US crisis as study cases and the related reports in New York Times as researching sample analyzing the quantity length type information source inclination towards China and news frame of the reports discussing the features and laws of media coverage on crises between China and America The ultimate purpose is to figure out the role and function of media during the decision making process of America s China policy and to conclude the inspiration for both countries diplomacy and international communication

Realizing Peace Louis Kriesberg,2015-03-30 In this book author Louis Kriesberg draws on the constructive conflict approach to assess American involvements in foreign conflicts since the onset of the Cold War He looks at what went well and what went poorly in order to derive ideas for engaging in conflicts more constructively in the future
