Confronting American Labor:

Confronting American Labor Jeffrey W. Coker, 2002 *Confronting American Labor* traces the development of the American left from the Depression era through the Cold War by examining four representative intellectuals who grappled with the difficult question of labor's role in society. Since the time of Marx, leftists have raised over and over the question of how an intelligentsia might participate in a movement carried out by the working class. Their modus operandi was to champion those who suffered injustice at the hands of the powerful. From the late nineteenth through much of the twentieth century this meant a focus on the industrial worker. The Great Depression was a time of remarkable consensus among leftist intellectuals who often interpreted worker militancy as the harbinger of impending radical change. While most Americans waited out the crisis listening to the assurances of President Franklin D. Roosevelt, the Marxian left was convinced that the crisis was systemic. Intellectuals who came of age during the Depression developed the view that the labor movement in America was to be the organizing base for a proletariat. Moreover, many came from working class backgrounds that contributed to their support of labor. Challenges and Choices Facing American Labor Thomas A. Kochan, 1985. The contributions collected in this book provide a summary of the extent and causes of this upheaval in industrial relations.
