Confronting Aids Public Priorities In A Global Epidemic:

Confronting AIDS ,1997 Confronting AIDS World Bank,1999 This revised and updated edition of the pathbreaking report on the global AIDS epidemic outlines the strategic role that government must play in slowing the spread of HIV and mitigating the impact of AIDS Drawing on the knowledge accumulated in the 17 years since the virus that causes AIDS was first identified the report highlights policies that are most likely to be effective in managing the epidemic These include early actions to minimize the spread of the virus aiming preventive interventions at high risk groups and evaluating measures that would assist households affected by AIDS according to the same standards applied to other health issues This revised edition will a valuable resource for public health policymakers researchers and anyone with an interest in this devastating global health crisis **Confronting AIDS** ,1999 **Confronting AIDS** ,1997 **Infectious Disease Epidemiology** ,2005

Confronting AIDS European Commission,European Commission. Directorate-General VIII - Development,World Bank,1998 **The Oxford Handbook of Global Health Politics** Colin McInnes,Kelley Lee,Jeremy R. Youde,2020 Controlling a major infectious disease outbreak or reducing rising rates of diabetes worldwide is not just about applying medical science Protecting and promoting health is inherently a political endeavor that requires understanding of who gets what where and why The Oxford Handbook of Global Health Politics presents the most comprehensive overview of how and why power lies at the heart of global health determinants and outcomes The chapters are written by internationally recognized experts working at the intersection of politics and global health The wide ranging chapters provide key insights for understanding how advances in global health cannot be achieved without attention to political actors processes and outcomes World Bank Group Publications ... Catalog World Bank Group,1999 **The Economics of Health and Health Care** Sherman Folland,Allen Charles Goodman,Miron Stano,2016-05-23 For courses in Health Economics U S Health Policy Systems or Public Health taken by health services students or practitioners the text makes economic concepts the backbone of its health care coverage Folland Goodman and Stano s book is the bestselling Health Care Economics text that teaches through core economic themes rather than concepts unique to the health care economy This edition contains revised and updated data tables where applicable The advent of the Patient Protection and Affordable Care Act PPACA in 2010 has also led to changes in many chapters most notably in the organization and focus of Chapter 16 From Cape to Congo Mwesiga Laurent Baregu,Chris Landsberg,2003 From the ongoing war in Angola to sporadic instability in Zimbabwe and Lesotho to the conflict in Congo to issues of land reform and the ravages of AIDS southern Africa faces varied and complex threats to its peace and security The authors of From Cape to Congo assess the region s major security challenges as well as the roles of local regional and external actors in managing them Their theoretically informed but practical approach encompasses the political economic and military arenas **Health and Development** International Monetary Fund,2004-11-23 The past century has been marked by rapid advances in human welfare People in most parts of the world

are healthier and are living longer While this trend is likely to continue hopes are fading in some regions where progress slowed or stopped in the 1990s primarily as a result of the AIDS epidemic This compilation of articles published over the past five years in the pages of F D looks at the important links between health and economic progress Articles range over a variety of topics from the Millennium Development Goals and their health related targets for 2015 to the economics of tobacco control Several articles examine the impact of AIDS and the global reaction while others look at debt and the intellectual property aspects of health care

The Global Politics of AIDS Paul G. Harris, Patricia D. Siplon, 2007 With more than 40 million people living with HIV AIDS and more than 25 million dead from related diseases since the early 1980s the need to understand the causes and impact of the pandemic is manifest In response The Global Politics of AIDS explores power and politics at multiple levels ranging from individual behavior to corporate boardrooms to international institutions and forces The authors combine careful scholarship with sensitivity to both the suffering of those afflicted and the frustration of those seeking to bring about meaningful change All royalties from sales of the book will be donated to AIDS related charities
