Confucius In The Boardroom Ancient Wisdom Modern Lessons For Business:

Confucius in the Boardroom Confucius, Lao Tzu, Chuang Tzu, 1998-04-01 Today's modern competitive business environment demands executives conduct business operations more effectively and compassionately in this century and beyond. Turning to the ancient wisdom of China provides insight for professionals who want to stay on the cutting edge. This program will guide executives with fundamental teachings on the topics of leadership, strategy, selling, personnel, and ethics from the writings of Confucius, Chuang Tzu, Lao Tzu, and others to present a practical vision for those who strive to maintain formidable status in the ever-changing business world. **Media Ethics** Clifford G. Christians, Mark Fackler, Kathy Brittain, Richardson, Peggy Kreshel, 2016-10-04

Media Ethics Cases and Moral Reasoning challenges readers to think analytically about ethical situations in mass communication through original case studies and commentaries about real-life media experiences. This text provides a comprehensive introduction to the theoretical principles of ethical philosophies facilitating ethical awareness. It introduces the Potter Box with its four dimensions of moral analysis to provide a framework for exploring the steps in moral reasoning and analyzing the cases. Focusing on a wide spectrum of ethical issues faced by media practitioners, the cases in this Tenth Edition include the most recent issues in journalism, broadcasting, advertising, public relations, and entertainment. Svendsen, 2014-12-05 Work is one of the most universal features of human life; virtually everybody spends some part of their life at work. It is often associated with tedium and boredom, in conflict with the things we would otherwise love to do. Thinking of work primarily as a burden, an activity we would rather be without, is a thought that was shared by the philosophers in ancient Greece who generally regarded work as a terrible curse. And yet research shows that it prolongs life and is generally good for people's physical and mental health. This is perhaps why work is increasingly recognized as a crucial source of meaning and social identity. And our attitudes to work have been changing significantly in the last decades with an increased demand for meaning and self-realization in the workplace. In this book, Lars Svendsen argues that we need to complete this reorientation of our feelings about work and collapse the differences between leisure and work. Work, like the poor, is always with us. But to overcome the sense of being burnt out, we must think of work as not only productive but recreative. In other words, a lot more like leisure. *Confucius in the Boardroom - Ancient Wisdom, Modern Lessons for Business* Stefan

Rudnicki, 1997-09 In keeping with the dictum that there is nothing new under the sun, this volume assembles a wide range of ancient Chinese texts which offer unique insights about how to do business more effectively and humanely in this century and beyond. These selections present a remarkably consistent and practical vision for the executive who wants to be on the cutting edge. Included are newly adapted selections from the major writings of Confucius, Lao Tzu, Chuang Tzu, and many others. October 1997 publication date. Contingent States William A. Callahan, 2004 In the 1990s Greater China became the subject of debate as the site of either the danger of the China threat or the promise of Confucian capitalism. William A.

Callahan argues that Greater China presents challenges not only to economic and political order but also to international relations theory. In fact, Greater China, though absent from geopolitical maps and international law, is very much present in economic and cultural exchange and exemplifies the contingent state of international politics. Callahan deconstructs the mainstream geopolitical and political economic understandings of Greater China, tracing its emergence through an ethnographic analysis of four political problems in East Asia: the South China Sea disputes, Sino-Korean relations, the return of Hong Kong, and cross-strait relations. Callahan shows how bureaucrats, outlaws, tycoons, academics, workers, politicians, and hooligans alike produce Greater China through networks of relations in local, national, regional, global, and transnational space. Finally, *Contingent States* reveals how each of the problems provoked theoretical innovations that depart from standard conceptions of sovereignty, democracy, and the nation-state. William A. Callahan is senior lecturer of international politics and deputy director of the Center for Contemporary Chinese Studies at the University of Durham, England, and the author of *Imagining Democracy: Reading the Events of May in Thailand* and *Pollwatching: Elections and Civil Society in Southeast Asia*.
