Congregational Development:

Growing New Churches Stephen C. Compton, G. Steven Saltee, 1992 New Congregational Development Presbyterian Church (U.S.A.). Office of Evangelism and Church Development, 1984 How to Hit the Ground Running Neal O. Michell, 2005-04 A practical and comprehensive guide and workbook for new church leadership to set up a sustainable foundation for pastors vestry and in administrative roles The quick start program described in this book is designed for the new rector or pastor who wants to hit the ground running It is also designed for principal lay leaders who will be instrumental in the transition to new leadership The program takes the new pastor vestry or other leadership bodies from one month prior to the new leader's arrival through the first 18 months afterward Organized in a user friendly workbook format this guide gives step by step suggestions on how the sometimes stalled and directionless period of transition in a faith community can be made dynamic and purposeful a time of true congregational development Participation in God G. Thomas Luck, 2024-12-19 What does God have to do with you and your community There are many good resources for individual and community development but few that talk about where God enters the conversation This work develops a particular theology of participation in the life of God and describes how this theology of participation in God informs individual and congregational development The subject of congregational development is human beings and their relationships with God and each other This theological framework provides individual and congregational development an answer to the question What does individual and congregational development have to do with God Much of the reading and writing for this book were done during the COVID 19 pandemic which raised new questions about how Christian communities gather without being in person This in turn has prompted new questions and thoughts about the nature of worship ecclesiology and adaptive challenges questions that Luck addresses through a theology of participation in God particularly participation in God's glory *Congregational Development* Lawrence Ray Wilson, 1963 **Vital Christian Community** Philip Brochard, Alissabeth Newton, 2022-09-20 Twelve characteristics of healthy Christian communities and the congregational and personal practices that develop them Congregations have been the bedrock of mainline Christian life and practice for centuries but in recent years many have dwindled in energy and impact Leaders conclude that change is needed that they can't keep applying the same models and practices that have served in the past but no longer seem to work At a time when all kinds of institutions are being buffeted by swift and strong cultural forces Brochard and Newton believe the congregation to be a primary site for the transformation of individuals communities and the world and that the measures for congregational vitality begin with health faithfulness and effectiveness as local expressions of the Church The authors offer readers insights into developing a sense of purpose building trust encouraging curiosity becoming more collaborative appreciating productive conflict and other vital skills Cultural Architecture Douglas A. Hill, 2021-01-26 *Cultural Architecture A Path to Creating Vitalized Congregations* by Douglas A Hill shifts the conversation about congregational

vitality squarely onto cultural development Hill makes the case that Jesus's concern was for generating a human culture that produces life for all and that the church is to serve as the foundation for such a culture Hill utilizes insights from the fields of Bible theology ecclesiology organizational intelligence anthropology and psychology His integration of theory and examples for practical application guide congregational leaders in becoming culturally aware as they engage in strategic congregational development Hill casts a vision that he calls anchor church in which vitalized congregations apply his system of cultural architecture while accompanying struggling congregations on a path toward redevelopment He also provides vision for how denominations and judicatories can support congregations in their quest for vitality Cultural Architecture A Path to Creating Vitalized Congregations serves to assist pastors and leaders as they guide their congregations through the painstaking and intensive process of redevelopment It provides hands on tools to guide congregational leaders in creating vision core values and strategic plans It is a valuable resource to professors of practical theology and internship supervisors as they instruct students in organizational development Judicatory leaders can utilize this book for training their pastors and leaders in cultural awareness as it relates to congregational development Although Hill's approach is grounded in his experiences within the Evangelical Lutheran Church in America his systems for cultural architecture can be applied to congregations of any denomination
