Connected Intelligence The Arrival Of The Web Society:

Connected Intelligence Derrick De Kerckhove, 1998 De Kerckhove speculates on the consequences of massive global networking and suggests that independent connected intelligence may well be the next step in the evolution of human intelligence

Prometheus Wired Darin Barney, 2000-05-01 From all sides we hear that computer technology with its undeniable power to disseminate information and connect individuals holds enormous potential for a reinvigoration of political life But will the Internet really spark a democratic revolution And will the changes it brings be so profound that past political thought will be of little use in helping us to understand them In *Prometheus Wired* Darin Barney debunks claims that a networked society will provide the infrastructure for a political revolution and shows that the resources we need for understanding and making sound judgments about this new technology are surprisingly close at hand By looking to thinkers who grappled with the relationship of society and technology such as Plato Aristotle Marx and Heidegger Barney critically examines such assertions about the character of digital networks Along the way Barney offers an eye opening history of digital networks and then explores a wide range of contemporary issues such as electronic commerce telecommuting privacy virtual community digital surveillance and the possibility of sovereign governance in an age of global networks Ultimately Barney argues that instead of placing power back in the hands of the public a networked economy seems to exacerbate the worst features of industrial capitalism and in terms of the surveillance and control it exerts reduces our political freedom Of vital interest to politicians communicators and anyone concerned about the future of democracy in the digital age *Prometheus Wired* adds a provocative new voice to the debate swirling around the Net and the ways in which it will or will not change our political lives *Prometheus Wired* was shortlisted for the 2001 2002 Harold Adams Innis Prize Click here to view other UBC Press award winners Selected as a Book for Everybody  The Network Society Jan van Dijk, 2012-04-30 The *Network Society* is now more than ever the essential guide to the past consequences and future of digital communication Fully revised this Third Edition covers crucial new issues and updates including the long history of social media and Web 2 0 why it s not as new as we think digital youth culture as a foreshadow of future new media use the struggle for control of the internet among Microsoft Google Apple and Facebook the contribution of media networks to the current financial crisis complete update of the literature on the facts theories trends and technologies of the internet new features for students with boxes of chapter questions conclusions and boxed explanations of key concepts This book remains an accessible comprehensive must read introduction to how new media function in contemporary society

Visions of the Human in Science Fiction and Cyberpunk, 2020-09-25 This collection of papers joins a growing body of work addressing what are arguably some of the most important questions faced in the 21st century what does it mean to be human and what do we understand by humanity

Human Factors of a Global Society Tadeusz Marek, Waldemar Karwowski, Marek Frankowicz, Jussi Kantola, Pavel Zgaga, 2014-06-02 During the last 60 years the discipline

of human factors HF has evolved alongside progress in engineering technology and business Contemporary HF is clearly shifting towards addressing the human centered design paradigm for much larger and complex societal systems the effectiveness of which is affected by recent advances in engineering science

Emerging Digital Spaces in Contemporary Society Phillip Kalantzis-Cope, Karim Gherab-Martin, 2010-12-08 Analyzing the relationship between digital technologies and society this book explores a wide range of complex social issues emerging in a new digital space It examines both the vexing dilemmas with a critical eye as well as prompting readers to think constructively and strategically about exciting possibilities

Urban Landscape Perspectives Giovanni Maciocco, 2008-02-01 Urban Landscape Perspectives explores how landscape terminology can be usefully brought into the urban debate The articles are by scholars who have a particular interest in and experience of the city project at various operative scales They include theoretical reflections on the landscape as an eminently project like figure The book describes new methods and approaches dealing with the contemporary environment whether it is from the point of view of the city or the landscape

FutureConsumer.Com Frank Feather, 2001-08 Updated to include the dot com disaster this prophetic book now in paperback explains the stock market shakedown why it happened and what's next

Echoes and Reflections Lance Strate, 2006 The author describes the interdisciplinary communication centered field of media ecology the study of media as environments a field that encompasses the study of technology symbol systems and aesthetic form in addition to traditional conceptions of media and mediation This book provides the first comprehensive overview of the field followed by a case study concerning the relationship between modes of communication and constructions of the self
