Discovery of America Elizabeth Horodowich,2018-09-06 Few Renaissance Venetians saw the New World with their own eyes
As the print capital of early modern Europe however Venice developed a unique relationship to the Americas Venetian editors
mapmakers translators writers and cosmographers represented the New World at times as a place that the city's mariners
had discovered before the Spanish a world linked to Marco Polo's China or another version of Venice especially in the case of
Tenochtitlan Elizabeth Horodowich explores these various and distinctive modes of imagining the New World including
Venetian rhetorics of firstness similitude othering comparison and simultaneity generated through forms of textual and visual
pastiche that linked the wider world to the Venetian lagoon These wide ranging stances allowed Venetians to argue for their
different but equivalent participation in the Age of Encounters Whereas historians have traditionally focused on the Spanish
conquest and colonization of the New World and the Dutch and English mapping of it they have ignored the wide circulation
of Venetian Americana Horodowich demonstrates how with their printed texts and maps Venetian newsmongers embraced a
fertile tension between the distant and the close In doing so they played a crucial yet heretofore unrecognized role in the

Empire extends from the beginning of the Iberian expansion of the mid fifteenth century through colonialism and slavery and
into the twentieth and twenty first centuries in Latin American republics Its point of departure is the question of empire and

its aftermath as reflected in the lives of contemporary Latin Americans of African descent and of their ancestors in the historical processes of Iberian colonial expansion colonization and the Atlantic slave trade The book s chapters explore what Blackness means in the so called racial democracies of Brazil and Cuba today Among the historical narratives and themes it covers are the role of medical science in the objectification and nullification of Black female personhood during slavery in nineteenth century Brazil the protocols of portraiture in the colonial period that in including enslaved individuals pictorially highlight and freeze their supposed inferiority vis vis their owners and those aspects of discourse that promote colonial capture and oppression in terms of evangelization and the saving of souls or simply create the discursive template as early as the fifteenth century for their continued alienation and marginalization across generations Trajectories of Empire s contributions come from the fields of literary criticism visual culture history anthropology popular culture rap and cultural studies As the product of an interdisciplinary collective this book will be of interest to scholars in Iberian or Hispanic studies Africana studies postcolonial studies and transatlantic studies as well as the general public
