Conrad Between The Lines Documents In A Life:

The Collected Letters of Joseph Conrad Joseph Conrad, 1983 This penultimate volume of Conrad's collected letters ends soon after his 65th birthday Over the previous three years Conrad wrote *The Rover* struggled with *Suspense* translated *The Book of Job* a Polish comedy collaborated with J B Pinker on a cinematic treatment of Gaspar Ruiz and worked by himself on adapting *The Secret Agent* for the London stage He saw the publication of *The Rescue* Notes on Life and Letters and the Doubleday Heinemann collected edition most of whose volumes had new Author's Notes Especially in North America the collected edition strengthened his reputation as the leading English language novelist of his day This recognition could not always console him for his worries about his health his family and the state of post war Europe but he had not lost his sense of irony These letters the majority new to scholarship abound in striking turns of phrase and unexpected insights

The Several Lives of Joseph Conrad John Stape, 2011-05-25 Please note The eBook version of this title is slightly different from the paperback version While the textual content remains the same the illustrations photographs were removed from the eBook version because of permissions issues *The Several Lives of Joseph Conrad* is the first new biography in more than a decade of one of modern literature's most important writers whose work remains widely read and acutely relevant eighty years after his death In this authoritative insightful book we see Joseph Conrad as a man who consistently reinvented himself Born in 1857 in Berdichev Ukraine he left home early and worked as a sailor out of Marseilles traveled to the Far East and Africa with the British merchant navy and finally in 1891 settled in England beginning a precarious existence as a novelist and family man Here is a Conrad for our moment a man with a deep sense of otherness a writer with multiple cultural identities who wrote in his third language and whose fiction became the cornerstone of literary Modernism With his exceptional knowledge and understanding of Conrad and drawing on unpublished letters and documents John Stape succeeds in casting an illuminating new light on the life of a willfully enigmatic man who remains one of the greatest writers of his and our time

Conrad's Reading Helen Chambers, 2018-04-18 This book aligns concepts and methods from book history with new literary research on a globally studied writer An innovative three part approach combining close reading the evidence of reading scrutiny of international book distribution circuits and of Conrad's many fictional representations of reading illuminates his childhood maritime and later shore based reading After an overview of the empirical evidence of Conrad's reading his sparsely documented twenty years reading at sea and in port is reconstructed An examination the reading practices of his famous narrator Marlow then serves to link Conrad's own maritime and shore based reading Conrad's subsequent networked reading shared with his closest male friends and with literate multilingual women is examined within the context of Edwardian reading practices His fictional representations of reading and material texts are highlighted throughout including genre trends periodical reading reading spaces and their lighting and the use of reading as therapy The book should appeal both to Conrad scholars and to historians of reading
