*Conscience and Its Critics* Edward Andrew, 2001 *Conscience and Its Critics* is an eloquent and passionate examination of the opposition between Protestant conscience and Enlightenment reason in the seventeenth and eighteenth centuries Seeking to illuminate what the United Nations Declaration of Rights means in its assertion that reason and conscience are the definitive qualities of human beings Edward Andrew attempts to give determinate shape to the protean notion of conscience through historical analysis The argument turns on the liberal Enlightenment's attempt to deconstruct conscience as an innate practical principle The ontological basis for individualism in the seventeenth century conscience was replaced in the eighteenth century by public opinion and conformity to social expectations Focusing on the English tradition of political thought and moral psychology and drawing on a wide range of writers Andrew reveals a strongly conservative dimension to the Enlightenment in opposing the egalitarian and antinomian strain in Protestant conscience He then traces the unresolved relationship between reason and conscience through to the modern conception of the liberty of conscience and shows how conscience served to contest social inequality and the natural laws of capitalist accumulation *Conscience and Its Critics*

Edward G. Andrew, 2001-12-15 *Conscience and Its Critics* is an eloquent and passionate examination of the opposition between Protestant conscience and Enlightenment reason in the seventeenth and eighteenth centuries Seeking to illuminate what the United Nations Declaration of Rights means in its assertion that reason and conscience are the definitive qualities of human beings Edward Andrew attempts to give determinate shape to the protean notion of conscience through historical analysis The argument turns on the liberal Enlightenment's attempt to deconstruct conscience as an innate practical principle The ontological basis for individualism in the seventeenth century conscience was replaced in the eighteenth century by public opinion and conformity to social expectations Focusing on the English tradition of political thought and moral psychology and drawing on a wide range of writers Andrew reveals a strongly conservative dimension to the Enlightenment in opposing the egalitarian and antinomian strain in Protestant conscience He then traces the unresolved relationship between reason and conscience through to the modern conception of the liberty of conscience and shows how conscience served to contest social inequality and the natural laws of capitalist accumulation *Indigenous Rights and the Legacies of the Bible* Mark G. Brett, 2024-06-25 A Christian imagination of colonial discovery permeated the early modern world but legal histories developed in very different ways depending on imperial jurisdictions *Indigenous Rights and the Legacies of the Bible* From Moses to Mabo explores the contradictions and ironies that emerged in the interactions between biblical warrants and colonial theories of Indigenous natural rights The early debates in the Americas mutated in the British colonies with a range of different outcomes after the American Revolution and tracking the history of biblical interpretation provides an illuminating pathway through these historical complexities A ground breaking legal judgement in the High Court of Australia *Mabo v Queensland* 1992 demonstrates the enduring legacies of debates over the previous five centuries The

case reveals that the Australian colonies are the only jurisdiction of the English common law tradition within which no treaties were made with the First Nations. Instead, there is a peculiar development of terra nullius ideology which can be traced back to the historic influences of the book of Genesis in Puritan thought in the seventeenth century. Having identified both similarities and differences between various colonial arguments and their overt dependence on early modern theological reasoning, Mark G. Brett examines the paradoxical permutations of imperial and anti-imperial motifs in the biblical texts themselves. Concepts of rights shifted over the centuries from theological to secular frameworks and more recently from anthropocentric assumptions to ecologically embedded concepts of Indigenous rights and responsibilities. Bearing in mind the differences between ancient and modern notions of indigeneity, a fresh understanding of this history proves timely as settler colonial states reflect on the implications of the United Nations Declaration on the Rights of Indigenous Peoples 2007. Brett's illuminating insights in this detailed study are particularly relevant for the four states that initially voted against the Declaration: the USA, Canada, New Zealand, and Australia.

**Law and the Restoration** Nathan B. Oman, 2024-08-20. *Law and the Restoration: Law and Latter-day Saint Thought and Scripture* is a comprehensive exploration of the intricate relationship between legal principles and the doctrines of The Church of Jesus Christ of Latter-day Saints. Author Nathan B. Oman delves into the profound ways in which Mormon theology intersects with legal concepts, offering readers a detailed analysis of church doctrines, their authority, and their implications for members' daily lives. In doing so, Oman addresses foundational questions about the nature of church authority, the role of personal judgment, and the dynamic interplay between divine law and secular legal systems. The book is not just an academic treatise but a thoughtful discourse aimed at elucidating how Mormons navigate complex moral and legal landscapes in their quest to reconcile faith with modern societal norms. Each chapter in *Law and Latter-day Saint Thought and Scripture* serves as a deep dive into specific aspects of Mormon doctrine and its legal ramifications. From the examination of Nephi's actions in the Book of Mormon to the contemporary debates surrounding same-sex marriage and civil disobedience, Oman provides a balanced and respectful analysis that seeks to understand rather than critique. This book is an invaluable resource for scholars, legal practitioners, and anyone interested in the intersection of religion and law, providing a rich narrative that underscores the ongoing dialogue between faith and jurisprudence within the Latter-day Saint tradition.

**Adam Smith and the Circles of Sympathy** Fonna Forman-Barzilai, 2010-03-25. A broad-ranging 2010 study of Smith's views on moral judgement, humanitarian care, commerce, justice, and international law.

**Hegel** Katerina Deligiorgi, 2014-12-05. Over the last decade, renewed interest in Hegel's thought and its legacy, especially in Anglo-American philosophy, has combined with the publication of new critical editions of his work in German to underline the value of Hegel for contemporary philosophy. *Hegel: New Directions* takes stock of this re-evaluation and presents an assessment of current thinking on this seminal philosopher. Leading scholars who have spearheaded the reappraisal bring the history of philosophy into dialogue with contemporary philosophical questions.

Drawing on a broad range of themes the essays offer a critical and stimulating guide to Hegel's thought whilst addressing central questions of contemporary philosophy in epistemology ethics political and social theory religion philosophy of nature and aesthetics

**Routledge Handbook of Military Ethics** George Lucas, 2015-05-22 The Routledge Handbook of Military Ethics is a comprehensive reference work that addresses concerns held in common by the military services of many nations It attempts to discern both moral dilemmas and clusters of moral principles held in common by all practitioners of this profession regardless of nation or culture Comprising essays by contributors drawn from the four service branches Army Navy Air Force and Marine corps as well as civilian academics specializing in this field this handbook discusses the relationship of ethics in the military setting to applied and professional ethics generally Leading scholars and senior military practitioners from countries including the US UK France China Australia and Japan discuss various national cultural views of the moral dimensions of military service With reference to the responsibilities of professional orientation and education as well as the challenges posed by recent technological developments this handbook examines the difficulties underpinning the fundamental framework of military service This book will be of much interest to students of military studies war theory ethics philosophy sociology war and conflict studies and security studies

Visionary of the Word Brian Yothers, Jonathan A Cook, 2017-01-15 Visionary of the Word brings together the latest scholarship on Herman Melville's treatment of religion across his long career as a writer of fiction and poetry The volume suggests the broad range of Melville's religious concerns including his engagement with the denominational divisions of American Christianity his dialogue with transatlantic currents in nineteenth century religious thought his consideration of theological and philosophical questions related to the problem of evil and determinism versus free will and his representation of the global contact among differing faiths and cultures These essays constitute a capacious response to the many avenues through which Melville interacted with religious faith doubt and secularization throughout his career advancing our understanding of Melville as a visionary interpreter of religious experience who remains resonant in our own religiously complex era

Voices on the Loss of National Independence in Korea and Vietnam, 1890-1920 William F. Pore, 2021-06-21 This book fills a long recognized need for a comparative study of the anti colonial movements in two countries not commonly combined within the same historical context Different though Korea and Vietnam are in several ways they both shared pasts that were similarly formative in molding the lives careers and thought of the two protagonists examined here The book reveals how they not only dealt with the realities of their time but also how through history philosophy experience emotion and imagination they came to deal with their countries condition and to envision the future and an alternative world order that have pertinence today
