Spiritual Emergency Stanislav Grof, Christina Grof, 1989-09

From Spiritual Emergency to Healing and Rebirth

Increasing numbers of people involved in personal transformation are experiencing spiritual emergencies, crises when the process of growth and change becomes chaotic and overwhelming. Individuals experiencing such episodes may feel that their sense of identity is breaking down, that their old values no longer hold true and that the very ground beneath their personal realities is radically shifting. In many cases, new realms of mystical and spiritual experience enter their lives suddenly and

dramatically resulting in fear and confusion They may feel tremendous anxiety have difficulty coping with their daily lives jobs and relationships and may even fear for their own sanity Unfortunately much of modern psychiatry has failed to distinguish these episodes from mental illness As a result transformational crises are often suppressed by routine psychiatric care medication and even institutionalization However there is a new perspective developing among many mental health professionals and those studying spiritual development that views such crises as transformative breakthroughs that can hold tremendous potential for physical and emotional healing When understood and treated in a supportive manner spiritual emergencies can become gateways to higher levels of functioning and new ways of being In this book foremost psychologists psychiatrists and spiritual teachers address the following questions What is spiritual emergency What is the relationship between spirituality madness and healing What forms does spiritual emergency take What are the pitfalls and promises of spiritual practice How can people in spiritual emergency be assisted by family friends and professionals This groundbreaking work reveals that within the crisis of spiritual emergency lies the promise of spiritual emergence and renewal
