tool in integrative and non dual therapy and the development of emotional intelligence      *The Meeting of Science and Spirit*  
 John Warren White,1990 Today it is often said that the world is on the verge of a New Age a worldwide evolution of a higher  
 consciousness In a series of essays that draw upon various New Age issues White reveals how this higher state of  
 consciousness can be explained in spiritual and scientific terms      *Futurizing the Jews* Tsvi (Howard) Bisk,Moshe  
 Dror,2003-11-30 Bisk and Dror assert that the 21st Century can be the Jewish Century that no other people is better  
 prepared to face its challenges However to do so a stress on the Jewish Future must replace a preoccupation with the Jewish  
 Past They offer a neo Zionist ideological analysis of modern Jewish life as an alternative to both classical Zionism and post  
 Zionism They conceptualize a Jewish Grand Strategy by clearly defining and delineating between ideology policy grand  
 strategy strategy and tactics with compelling proposals for what such a revised Grand Strategy might entail They suggest a  
 concept of reinvigorated Israel Diaspora relations based on this new Grand Strategy and the potential of the Information  
 Technology Revolution They also offer a conception of Jewish spirituality that could be as appealing to secular as to religious  
 Jews They reject the concept of a Nation that Dwells Alone Throughout the ages Jews have affected and been affected by the  
 world more than any other People they assert They also reject the view that suffering is the dominant feature of Jewish  
 history as this lachrymose perception cannot inspire needed Jewish ambitions in the young They stress the needs of the  
 Jewish person and insist that there can be no real significance to the continued existence of the Jewish People unless the real  
 life concrete needs of the individual are addressed As former Israeli Ambassador to the United Nations and former Cabinet  
 Minister Gad Yaacobi asserts in his foreword The book is original iconoclastic and in some ways revolutionary it challenges  
 inherited assumptions and calls for positive action I believe we have before us a book that must become a reference point for  
 Jewish policy makers as quickly as possible      *Whitaker's Books in Print* ,1998      *The Praeger Handbook of Education and*  
*Psychology* Joe L. Kincheloe,Raymond A. Horn,2007      *The Motherly Earth* Joseph Peruma,2002      **Conscious Evolution**  
 Barry McWaters,1981      *Green Revolution* ,1972      *Awakening Earth* Duane Elgin,1993 Just as there are relatively distinct  
 stages that characterize the development of an individual from infancy to early adulthood so too are there discernible stages  
 in the development of our species as we move toward a planetary scale civilization Awakening Earth brings together views  
 from science and spirituality East and West the practical and the visionary to present a compelling new picture of human  
 evolution Based upon twenty years of research this book explores the human journey from the initial awakening of hunter  
 gatherers roughly 35 000 years ago through the agrarian era and Industrial Revolution and then goes on to describe three  
 additional stages of development essential for realizing our initial maturity as a global species civilization A disoriented world  
 civilization faced with dwindling resources mounting pollution and exploding population is a recipe for ecological collapse  
 and social anarchy It is imperative that the human family begin to make rapid and profound changes in how we live together  
 on the Earth To accomplish this we must now ask ourselves fundamental questions Who are we What are we doing here

Where are we going as a species Awakening Earth provides a catalyst for this conversation with its integrative vision and inspiring map of the journey toward a sustainable compassionate and creative future While not predicting a sudden new age of social enlightenment Awakening Earth does present the promising view that humanity is roughly halfway through seven major transformations in culture and consciousness required to build a planetary civilization that can endure into the deep future BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved     **Hip-hop Revolution** Jeffrey Ogbonna Green Ogbar,2007 As hip hop artists constantly struggle to keep it real this fascinating study examines the debates over the core codes of hip hop authenticity as it reflects and reacts to problematic black images in popular culture placing hip hop in its proper cultural political and social contexts     International Symposium Series, Expo'
