## **Consciousness Revolution A Transatlantic Dialogue:**

*The Consciousness Revolution* Stanislav Grof, 1999      *The Consciousness Revolution* Stanislav Grof, Peter Russell, 2003

In this book three pioneers at the cutting edge of Western thought reflect on the chances of peace in the world on how society is changing and on the changes we can make ourselves. They consider the roles of art, science, education, goals and values, world views, religion, spirituality and above all consciousness for the state of our consciousness is the key issue underlying almost all others. Back cover      **The Consciousness Revolution** Stanislav Grof, Peter Russell, 1999 AS WE ENTER THE 21ST CENTURY faced with current global and human crises society is being questioned as never before. In *The Consciousness Revolution* three pioneers at the cutting edge of Western thought reflect on the chances of peace in the world on how society is changing and on the changes we can make in ourselves. They consider the roles of art, science, education, goals and values, world views, religion, spirituality and above all consciousness for the state of our consciousness is the key issue underlying almost everything else. As Ken Wilber asks in his Foreword what does it all finally come down to? Peter Russell put it like this: Each little bit counts, we are all part of the same ground swell. The most important question we need to ask is how can I put my own life in greater alignment with that ground swell? How can I do my little one hundred thousandth worth to facilitate that shift a bit further? These intense and memorable discussions among three of the finest minds of our time convey a sense of excitement and passion which we can carry forward in our own lives. *The Consciousness Revolution* is an essential guide to how our map of reality is changing in the midst of the global transformations going on in all parts of the world and in every sphere of life in us and around us.      *The fabric(ation) of consciousness* Pieter F. Craffert, 2024-05-28

Consciousness is central to the quest for being human and for what the world is made of. While there is widespread agreement on the significance of consciousness for clarifying the human condition, there is no agreement on the phenomenon in search of theorising. Although there is no shortage of theories and concepts of consciousness in current consciousness research, the dominant critical analysis of consciousness research in this study, although based on existing analyses, is as far as I can see new and unique in arguing for a crisis in consciousness research. This book touches on most aspects of consciousness research: the hard problem of consciousness, neural correlates of consciousness, brain models and consciousness, consciousness and dualistic thinking etc. but is a critical analysis of consciousness research. It is not an insider but a third person perspective on current consciousness research. In this regard it differs from most introductions and overviews where these topics are presented from a first person perspective, the insiders' claim about their research. Representing the broad spectrum of consciousness research in terms of the theoretical framework of a neuro-ecological perspective is a new and innovative move.      **Psychology and the Three Cultures** Rosalyn M. King, 2018-12-17 This book discusses the history and evolution of the field of psychology and its position as a global integrated hub science. It presents the nexus between science, the humanities and social sciences. It addresses the seminal work of Cambridge physicist C P

Snow who more than five decades ago wrote the book on The Two Cultures outlining the intellectual schism between the academic disciplines the humanities arts religion and the sciences Today the social sciences comprise the third culture and Jerome Kagan a Harvard developmental psychologist published a book in 2009 The Three Cultures Natural Sciences Social Sciences and the Humanities in the 21st Century responding to Snow's earlier concerns that includes a look at the newest culture the social sciences Psychology and the Three Cultures History Perspectives and Portraits examines early and current notions about the three cultures reflecting on C P Snow's treatise on The Two Cultures and Jerome Kagan's treatise on The Three Cultures as related to the field of psychology The book illustrates how psychological science historically has blended all these cultures in order to understand human nature It traces the history of psychology highlighting pivotal places and people from around the world contributing to the evolution of the field The book documents psychology as a global integrated hub science and a blend of the disciplines The discussion here includes the emergence of psychology from the field of philosophy and the many subfields currently representing psychology today Examples are provided of select subfields moving across disciplines as well as portraits of three revolutionary scientists Carl Jung William James and Stanislav Grof whose work intersects many disciplines as they study understand and describe human nature This book is a must read for scholars psychologists social scientists scientists historians and medical professionals undergraduate and graduate students studying the history of psychological science and its evolution The book is also written for lay persons interested in the field of psychology dispelling the myth of psychology as a pseudoscience

**When the Impossible Happens** Stanislav Grof, 2009-12-21 Feelings of oneness with others nature and the universe Encounters with extraterrestrials deities and demons Out of body experiences and past life memories Science casts a skeptical eye But Dr Stanislav Grof the psychiatric researcher who co founded transpersonal psychology believes otherwise When the Impossible Happens presents Dr Grof's mesmerizing firsthand account of his fifty year inquiry into waters uncharted by conventional psychology an odyssey that will leave you questioning the very fabric of your existence From the first LSD session that gave Dr Grof a glimpse of cosmic consciousness to his latest work with Holotropic Breathwork When the Impossible Happens explores fascinating experiments in astral projection remarkable tales of synchronicity memories of birth and prenatal life the survival of consciousness after death and much more Here is an incredible opportunity to journey beyond ordinary consciousness guaranteed to shake the foundations of what we assume to be reality and sure to offer a new vision of our human potential as we contemplate When the Impossible Happens STANISLAV GROF M D PH D One of the founders and chief theoreticians of transpersonal psychology Dr Grof is the president of the International Transpersonal Association and a professor of psychology at the California Institute of Integral Studies and the Pacifica Graduate Institute His numerous books include Beyond the Brain and Psychology of the Future

*Rhetorics and Hermeneutics* James D. Hester, David Hester, 2004-01-01 This collection of essays provides original studies of various New Testament texts read through the eyes of rhetorical criticism as well as a tribute to

the continuing influence of Wilhelm Wuellner and his work

**Intergenerational Education for Adolescents towards Liveable Futures** David Lloyd, Kathryn Paige, Richard Smith, 2019-06-13 This volume will provide eco socially oriented science and environmental educators with a diverse set of examples of how science and environmental learning for students and their co learner teachers can be enacted in ways which contribute to their understanding of commitment to and capabilities towards living for a more eco socially just and therefore more sustainable world Science and environmental learning is set within a challenging framework one that entails critical transdisciplinary learning and acting and values all the human and other than human beings sharing Earth s rich but finite resources The text asserts that ethical contemporary science and environmental education which practitioners might find within science technology engineering and mathematics STEM will have at centre stage not merely more factual knowledge but also the development of learners affect and behaviour towards acting for eco social justice This will demand that learners more fully appreciate not only the necessity to transition swiftly to living within planetary boundaries but also the requirements of ethical living that humans share health and well being more equally with their own and all other species Further the book proposes that eco socially responsible science and environmental education must be set within a transdisciplinary and integral framework one in which curriculum and pedagogy are embedded in everyday practice In this transition project from unsustainable inequities to eco social justice teachers and community leaders need to work with their students citizens in envisioning preferable futures and developing shared knowledge values dispositions courage and capabilities to work towards such futures and in genuine attempts at affecting them

**Pathways to Wholeness** Renn Butler, 2019-06-06 An exploration into how to use archetypal astrology as a guide to the transpersonal journey The exploration of the psyche in non ordinary states of consciousness provides access to powerful transformative experiences that can lead us towards a more complete experience of being human the realisation of a deeper identity while also yielding extraordinary insights into the ultimate nature of reality Described by Stanislav Grof as the Rosetta Stone of consciousness research archetypal astrology is based on a correspondence between planetary alignments and archetypal patterns in human experience Here by drawing on the work of Grof and Richard Tarnas Butler systematically describes the archetypal themes and qualities associated with each of the major planetary combinations studied in astrology and considers how these themes might manifest and be supported in deep psychological self exploration Based on thirty years of research Pathways to Wholeness is an indispensable reference book for explorers of the inner worlds Pathways to Wholeness Explores the intersection between Grofian transpersonal psychology and archetypal astrology Describes the nature of the planetary archetypes in astrology Explores the archetypal meaning of all the main planetary combinations as applied to everyday life perinatal psychology and transpersonal experience Provides illuminating case studies and vignettes Illustrated with mandala drawings

**Tryptamine Palace** James Oroc, 2009-05-21 A journey from Burning Man to the Akashic Field that suggest how 5 MeO DMT triggers the human capacity for higher knowledge through

direct contact with the zero point field Examines Bufo alvarius toad venom which contains the potent natural psychedelic 5 MeO DMT and explores its entheogenic use Proposes a new connection between the findings of modern physics and the knowledge held by shamans and religious sages for millennia The venom from Bufo alvarius an unusual toad found in the Sonoran desert contains 5 MeO DMT a potent natural chemical similar in effect to the more common entheogen DMT The venom can be dried into a powder which some researchers speculate was used ceremonially by Amerindian shamans When smoked it prompts an instantaneous break with the physical world that causes out of body experiences completely removed from the conventional dimensions of reality In Tryptamine Palace James Oroc shares his personal experiences with 5 MeODMT which led to a complete transformation of his understanding of himself and of the very fabric of reality Driven to comprehend the transformational properties of this substance Oroc combined extensive studies of physics and philosophy with the epiphanies he gained from his time at Burning Man He discovered that ingesting tryptamines unlocked a fundamental human capacity for higher knowledge through direct contact with the zero point field of modern physics known to the ancients as the Akashic Field In the quantum world of nonlocal interactions the line between the physical and the mental dissolves 5 MeO DMT Oroc argues can act as a means to awaken the remarkable capacities of the human soul as well as restore experiential mystical spirituality to Western civilization *Global Studies Directory* ,2017-10-02 Publication of the Global Studies Directory represents an unprecedented project in world practice Based on the professional assessment by a large international team of experts the Directory offers information on the most well known scholars political and public figures who have made outstanding contributions to the establishment and development of global studies or made a fundamental impact on the formation of global world The Directory also contains comprehensive information about organizations periodicals and special literature of direct relevance to the theory and practice of globalization and fully demonstrates the state of affairs in the field of study on a global level This project is a continuation of many years of research which first resulted in the publication of the Global Studies Encyclopedic Dictionary the companion publication to the Directory
