Confronting The Basilisk:

Confronting the Basilisk Mark Hamilton,1993 Dreams of the Forgotten Dead Eric R. Asher,2021-08-24 A hope lost A fury reborn An ancient warrior awakens Damian Vesik is back but his time in the Abyss changed him As he grapples to understand his oddly fluctuating powers a call from his trusted mechanic Samir is the last thing he needs But the strange occurrences at the autobody shop can t be ignored Calling on Nixie and a rather odd gift from a water witch clan Damian uncovers a dreadful creature haunting Samir s shop Knowing he can t face a basilisk in his current state his only option is to seek out Gaia in his quest for answers Yet as destruction closes in on St Louis the only hope of salvation could be the ghost of an Utukku one who is downright cranky about being dead Money-maker, Or, The Victory of the Basilisk Oliver Optic,1874

Literature and Fascination Sibylle Baumbach,2015-07-30 Exploring literary fascination as a key concept of aesthetic attraction this book illuminates the ways in which literary texts are designed presented and received Detailed case studies include texts by William Shakespeare S T Coleridge Mary Shelley Bram Stoker Oscar Wilde Joseph Conrad Don DeLillo and Ian McEwan The World of Meaning Christopher Zurcher,2024-05-22 The meaning of life is something that has puzzled humanity for centuries and continues to inspire contemplation and discussion Near the end of the nineteenth century German philosopher Friedrich Nietzsche predicted that the West s obsession with viewing the world through a scientific lens would eventually lead to the death of God the realization that our religious traditions would not hold up under scientific scrutiny and therefore would become unbelievable This in turn Nietzsche believed would lead to nihilism and a loss of purpose After all without the existence of a transcendent reality what is the point Why continue living Or better yet if there is no God why not do whatever we want whenever we want In a million years what will it matter The World of Meaning attempts to answer these questions by exploring the claim that humans essentially live in two worlds the scientific world of objects and the conceptual world of meaning and although the objective world may be easier to measure scientifically it appears that the world of meaning is our primary reality Through the study of philosophy science and mythology The World of Meaning attempts to prove the existence of this conceptual world and provide us with a blueprint for rediscovering the transcendent as well as the purpose of our lives Allegories Frederic William Farrar,1898 **Ethnozoology** Romulo Romeu Nobrega Alves,Ulysses Paulino Albuquerque,2017-10-23 Ethnozoology Animals In Our Lives represents the first book about this discipline providing a discussion on key themes on human animal interactions and their implications along with recent major advances in research Humans share the world with a bewildering variety of other animals and have interacted with them in different ways This variety of interactions both past and present is investigated through ethnozoology which is a hybrid discipline structured with elements from both the natural and social sciences as it seeks to understand how humans have perceived and interacted with faunal resources throughout history In a broader context ethnozoology and its companion discipline ethnobotany form part of the larger body of the science of ethnobiology In recent years the importance of

ethnozoological ethnobiological studies has increasingly been recognized unsurprisingly given the strong human influence on biodiversity From the perspective of ethnozoology the book addresses all aspects of human connection animals and health from its use in traditional medicine to bioprospecting derivatives of fauna for pharmaceuticals with expert contributions from leading researchers in the field Draws on editors and contributors extensive research experience and studies covering ethnozoology and ethnobiology Covers all aspects of human animal interaction through the lens of this emerging discipline with coverage of both domestic and wild animal topics Presents topics of great interest to a variety of researchers including those in wildlife conservation biologists ecologists conservationists and domestic related disciplines psychologists sociologists
