archetype of judgment healing and mediation between heaven and earth The serpent when lifted up is linked to the seven spheres or planets representing Christ as the axis that unites all levels of creation and brings restoration The book also explores the symbolism of metals bronze as a sign of divine judgment and refinement and brass as a symbol of counterfeit spirituality using the evolution of metallurgy as a metaphor for spiritual truth versus deception The work concludes with a critique of modern timekeeping and materialism proposing a return to a divinely aligned calendar and rhythm of life It traces the author s own genealogy as a case study in the endurance of biblical prophecy and the persistence of God s promises Ultimately the book envisions the universe as a divine symphony with Christ as the conductor and calls for a restoration of the original sacred rhythms that govern both the seen and unseen realms
