## **Confronting Reality Master The New Model For Success:**

**Confronting Reality** Larry Bossidy, Ram Charan, 2004-10-19 Confronting Reality will change the way you think about and run your business. It is the first book that shows how to connect the big picture of the new era of business with the nitty gritty of what to do about it. Through a completely new way to understand and use the business model as the primary tool for confronting reality, a breakthrough that will become the management innovation of this decade, you'll know sooner rather than later whether your fundamental business premise is under assault where your best opportunities lie, what you should change and what you should leave alone, and how to realistically plan the future of your business. The fundamentals of how a business makes money are being rapidly and permanently altered by sweeping structural changes. With their extraordinary depth and breadth of experience, Larry Bossidy and Ram Charan are the ideal guides for everyone: entrepreneur, mid-level manager, or CEO. About what is to be done so you can get things right in this challenging, radically changed world. They start by showing you how to understand the most fundamental element of any business: whether you can realistically make the money you hope to in the game you're playing. Bossidy and Charan show how to use the business model to develop a robust, reality-based process for thinking about the specifics of your business in a holistic way. They show how to tie together the financial targets you must meet, the external realities you face, and internal activities such as strategy development, operating tactics, and selection and development of people. Through the lens of the business model, as well as the skillful use of initiatives and development of people with the right leadership characteristics, you'll see how Robert Nardelli at Home Depot, Jim McNerney at 3M, Dick Harrington at the Thomson Corporation, Michael Wisbrun at KLM, Joseph Tucci at EMC, and John Chambers at Cisco confronted reality. Whether they faced crisis or opportunity, all made the right kinds of changes through a combination of business savvy, the art of understanding the fundamentals driving a business, and business model thinking.

**The Thinkers 50** Stuart Crainer, 2006-06-30 From the distinguished Charles Handy to the classic Philip Kotler to the outspoken Paul Krugman and including such visionary leaders as Bill Gates and Jeff Bezos, *The Thinkers 50* based on an international survey of business academics, practitioners, consultants, and journalists reinforces the powerful influences business and popular culture have on each other. Following surveys that were conducted in 2001 and 2003 asking the single question, "Who is the most important living management thinker?" the 2005 survey is the first to be released with a companion book applying such criteria as practicality of ideas and international outlook to determine ranking and featuring colorful, informative, and concise profiles of the 50 individuals whose ideas most profoundly influence business today. Each profile includes information on the subject's background and primary contributions and lists key publications and web sites. Collectively, they reflect the state of the art in contemporary management thinking and its application, separating the people and ideas with lasting impact from the passing fads. From students to entrepreneurs to seasoned executives, *The Thinkers 50* provides a compendium of practical insights on the art and science of management. *The Publishers Weekly*, 2005
