Conscience Community The Legacy Of Paul Ylvisaker:

Conscience & Community Paul N. Ylvisaker, 1999 Collection of speeches and writings from 1949 to 1990 **Strategic Giving** Peter Frumkin, 2008-09-15 The philanthropic landscape is changing dramatically as a new generation of wealthy donors seeks to leave its mark on the public sphere Peter Frumkin reveals in Strategic Giving why these donors could benefit from having a comprehensive plan to guide their giving And with this thoughtful and timely book he provides the much needed framework to understand and develop this kind of philanthropic strategy After listening for years to scores of individual and institutional funders discuss the challenges of giving wisely Frumkin argues here that contemporary philanthropy requires a thorough rethinking of its underlying logic Philanthropy should be seen he contends as both a powerful way to meet public needs and a meaningful way to express private beliefs and commitments He demonstrates that finding a way to simultaneously fulfill both of these functions is crucial to the survival of philanthropy and its potential to support pluralism in society And he goes on to identify the five essential elements donors must consider when developing a philanthropic strategy the vehicle through which giving will flow the way impact will be achieved the level of engagement and profile sought the time frame for giving and the underlying purpose of the gift Frumkin's point is that donors must understand strategic giving as the integration of these five critical dimensions to giving Essential reading for donors researchers and anyone involved with the world of philanthropy Strategic Giving provides a new basis for understanding philanthropic effectiveness and a promising new way for philanthropy to achieve the legitimacy that has at times eluded it

Timing the Future Metropolis Peter Ekman, 2024-11-15 Timing the Future Metropolis an intellectual history of planning urbanism design and social science explores the network of postwar institutions formed amid specters of urban crisis and renewal that set out to envision the future of the American city Peter Ekman focuses on one decisive node in the network the Joint Center for Urban Studies founded in 1959 by scholars at Harvard and MIT Through its sprawling programs of organized research its manifold connections to universities foundations publishers and policymakers and its years of consultation on the planning of a new city in Venezuela Ciudad Guayana the Joint Center became preoccupied with the question of how to conceptualize the urban future as an object of knowledge Timing the Future Metropolis ultimately compels a broader reflection on temporality in urban planning rethinking how we might imagine cities yet to come and the consequences of deciding not to **The Internal Colony** Sam Klug, 2025-01-14 An explication of how global decolonization provoked profound changes in American political theory and practice In The Internal Colony Sam Klug reveals the central but underappreciated importance of global decolonization to the divergence between mainstream liberalism and the Black freedom movement in postwar America Klug reconsiders what has long been seen as a matter of primarily domestic policy in light of a series of debates concerning self determination postcolonial economic development and the meanings of colonialism and decolonization These debates deeply influenced the discord between Black activists and state policymakers

and formed a crucial dividing line in national politics in the 1960s and 1970s The result is a history that broadens our understanding of ideological formation particularly how Americans conceptualized racial power and political economy by revealing a much wider and more dynamic network of influences Linking intellectual political and social movement history The Internal Colony illuminates how global decolonization transformed the terms of debate over race and social class in the twentieth century United States *Curriculum, Community, and Urban School Reform* B. Franklin, 2010-03-01 This book asserts that efforts to reform schools particularly urban schools are events that engender a host of issues and conflicts that have been interpreted through the conceptual lens of community *Igniting the Power of Community* Paul A.

Gaist, 2009-12-04 Igniting the Power of Community The Role of CBOs and NGOs in Global Public Health introduces readers to the pursuit and potential of community based organizations and nongovernmental organizations to transform global public health At a time of unprecedented challenges economic crises social inequalities environmental stressors emerging health threats these organizations are initiating and driving change often being the first to call attention to the issues and increasingly forging significant and sustainable solutions Through concrete examples success stories and cautionary tales from experienced practitioners Igniting the Power of Community demonstrates why understanding the roles of the diverse organizations of this sector is vital to anyone concerned with improving health and public health today This forward thinking book explains how citizen sector organizations work their immediate and long term impact on public health and the key players and business dynamics involved With an emphasis on innovative approaches it provides an insiders view into practical considerations regarding organizational structure financing and operations A sampling of the coverage The new era of social entrepreneurship and philanthropy Sustainability in international public health NGOs Front line perspectives from both well established and grassroots CBOs Faith based organizations and public health NGOs and the military evolving relationships in conflict and disaster zones Understanding the environmental health movement and its impact Project YEAH a youth AIDS organizations story Whether you are involved in clinical care health research public health programs or policy development and implementation this book provides key insights and skills and will serve as an invaluable resource in working most effectively with and within these dynamic organizations body **Learning from Arnstein's Ladder** Mickey Lauria, Carissa Schively Slotterback, 2020-10-12 Sherry Arnstein writing in 1969 about citizen involvement in planning processes in the United States described a ladder of citizen participation that showed participation ranging from low to high Arnstein depicted the failings of typical participation processes at the time and characterized aspirations toward engagement that have now been elevated to core values in planning practice But since that time the political economic and social context has evolved greatly and planners organizers and residents have been involved in planning and community development practice in ways previously unforeseen Learning from Arnstein's Ladder draws on contemporary theory expertise empirical analysis and practical applications in what is now more commonly termed public engagement in planning to examine the

enduring impacts of Arnstein's work and the pervasive challenges that planners face in advancing meaningful public engagement. This book presents research from throughout the world including Australia, Brazil, India, Indonesia, Portugal, Serbia, and the United States among others that utilizes critiques, revises, and expands upon Arnstein's aspirational vision. It is essential reading for educators and students of planning. The Slaughter of Cities E. Michael Jones, 2004. In his meticulously documented book, Jones focuses on four cities to prove that urban renewal over the past decades had more to do with ethnicity than it ever had to do with design, hygiene, or urban blight. **The Nature of Cities** Jennifer S. Light, 2009-05-15. Honorable Mention 2009 Lewis Mumford Prize Society for City and Regional Planning History. In the early twentieth century, America was transformed from a predominantly agricultural nation to one whose population resided mostly in cities. Yet rural areas continued to hold favored status in the country's political life. For prominent figures in the social sciences, city planning, and real estate who were anxious about the future of cities, this obsession with the agrarian past inspired a new campaign for urban reform. They called for ongoing programs of natural resource management to be extended to maintain and improve cities. Jennifer S. Light finds a new understanding of the history of urban renewal in the United States in the rise and fall of the American conservation movement. The professionals Light examines came to view America's urban landscapes as ecological communities requiring scientific management on par with forests and farms. *The Nature of Cities* brings together environmental and urban history to reveal how over four decades this ecological vision shaped the development of cities around the nation. Legitimacy of Philanthropic Foundations Kenneth Prewitt, 2006-10-27. Provides a thorough examination of why foundations exist and the varied purposes they serve in contemporary democratic societies.

The Future of Educational Entrepreneurship Frederick M. Hess, 2008. In *The Future of Educational Entrepreneurship*, Hess discovers avenues, challenges, and the wide-ranging benefits of allowing entrepreneurial activity in public schools. This book gives educational entrepreneurship much needed attention and elucidation. Power in Policy David F. Arons, 2007. Powerful tools for achieving your philanthropic mission. Why should funders try to shape public policy? Simply put, it's the only way to affect the laws that determine how people will be treated, what services will be provided, and what behaviors are acceptable. But what role should foundations play? *Power in Policy*, written primarily by foundation practitioners for foundations, is the first book that makes a strong case for why advocacy and civic participation are fundamental roles for foundations. Shares insights, lessons, and perspectives from foundation leaders and legal and philanthropic experts on how to engage in and incorporate advocacy into philanthropy. Answers frequently asked questions including: How does my foundation assess various risks? How do we organizationally prepare for public policy work and develop advocacy strategies? Gives rich case stories of how private and community foundations, including large and small foundations, are meeting their missions through public policy and civic activity. Presents clearly and concisely key principles and legal rules. Provides a toolkit for foundations to develop the capacity to engage in advocacy at their own speed and resource level. How to get involved. From

big picture concerns like the risks and rewards of advocacy to specifics such as legal rules this guide shows what advocacy means in terms of work and outcomes and how foundations can develop and launch their own public policy activities Power in Policy is a must have for foundations who want to have a long term impact on the communities and causes they care about
