involved two related tasks The first was to analyse Zolt n Kod ly s philosophy of music education and on this basis to develop

a computer assisted instruction method CAI for teaching music theory and self ge ear training The second task was to

experiment with the effectiveness of this method and compare it with traditional approaches to teaching Many student find

music theory and ear training difficult During the 1990s in connection with my licentiate thesis Self ge in the Computer

Classroom 2000 I initiated this research project and developed a CAI method for teaching music theory and self ge I wanted

to see just how useful Kod ly s approach could be in computer aided teaching and learning The results show that the Kod ly

approach can be successfully applied to the development of a computer aided self ge programme and the Kod ly system is

applicable to new learning environments and teaching practices In music education CAI is an area with great potential for

development It offers multiple learning options and can enhance students motivation to study music theory and ear training some of the learning outcomes were even better than with the traditional ways of learning The results also show however that the teacher pupil interaction is essential in a computer aided learning programme *Ultimate Contemporary Rhythm Keyboard Grooves* Andrew D.
