Geographies of Agriculture Guy Robinson, 2014-01-14 Agricultural Geography has changed dramatically in recent decades reflecting the transformation of the farming industry itself Geographies of Agriculture embraces these changes applying ideas and methods from contemporary social science as it moves beyond farm based production to address current issues affecting the production and consumption of food and fibre throughout the world The book places special emphasis on topics that reflect globalisation processes integration of agriculture into the wider agri food system concern with attaining sustainable production systems and the importance of both government and supra government policies Examples are drawn from North America Western Europe and the developing world Geographies of Agriculture will appeal especially to Geography students but should also be of interest to a broader range of students in Sociology Economics and Development Studies and anyone interested in agriculture food production and consumption and rural development Countryside Planning Andrew Gilg, 2002-11-01 Should rural Britain be preserved from urban development or should people be allowed to live and shop where they want In the face of continued urban expansion the countryside has become a major issue its future development uncertain Countryside Planning addresses these concerns and provides an in depth study of the rural debate Beginning with the key concepts and issues the author sets out the context in which planning operates and how society has constructed its own images of the countryside Using three theoretical perspectives the book describes the evolution of the current planning system and provides a basis for further discussion about the possible future for the countryside In the wake of the recent Rural White Paper the book includes the major issues that affect contemporary rural Britain including the current reforms of the CAP the role of farmers as land managers and the hypocrisy of sustainable and green tourism Using boxed policy summaries throughout the text as well as key question and answer sections in every chapter the author treats policy and trends across the whole spectrum of countryside planning Countryside Planning is an in depth and authoritative analysis of rural policy and makes an important contribution to the countryside planning debate and the future of rural Britain Canadian Geography Thomas A. Rumney, 2009-12-10 Canadian Geography A Scholarly Bibliography is a compendium of published works on geographical studies of Canada and its various provinces It includes works on geographical studies of Canada as a whole on multiple provinces and on individual provinces Works covered include books monographs atlases book chapters scholarly articles dissertations and theses The contents are organized first by region into

Rapid population growth demand for increased food resources and other political economic and social stresses have all contributed to building up pressure for development of marginal regions in both developed and developing countries. Ecological issues are also adding up to and increasing marginalization of regions and social groups due to the pressure on natural resources. Broadly speaking marginal regions are perceived in concepts of centre periphery fringes and boundaries and frontiers. In developing countries marginal regions are the combined effects of ecological economic and social factors. For understanding the above complex issues the Study Group on Development Issues in Marginal Regions was established in August 1992 at the Washington International Geographical Congress.
