Contested Natures:

Contested Natures Phil Macnaghten, John Urry, 1998-03-06 Demonstrating that all notions of nature are inextricably entangled in different forms of social life the text elaborates the many ways in which the apparently natural world has been produced from within particular social practices These are analyzed in terms of different senses different times and the production of distinct spaces including the local the national and the global The authors emphasize the importance of cultural understandings of the physical world highlighting the ways in which these have been routinely misunderstood by academic and policy discourses They show that popular conceptions of and attitudes to nature are often contradictory and that there are no simple ways of prevailing upon people to save the environment *Contested Natures* Phil Macnaghten, John Urry, 1998-05-21 Exploring the changing significance of nature in daily life this text demonstrates that nature is irreducibly contested and embedded in highly diverse and ambivalent social practices **The Natural City** Stephen B. Scharper, Ingrid Leman-Stefanovic, 2012-01-01 Urban and natural environments are often viewed as entirely separate entities human settlements as the domain of architects and planners and natural areas as untouched wilderness This dichotomy continues to drive decision making in subtle ways but with the mounting pressures of global climate change and declining biodiversity it is no longer viable New technologies are promising to provide renewable energy sources and greener designs but real change will require a deeper shift in values attitudes and perceptions A timely and important collection **The Natural City** explores how to integrate the natural environment into healthy urban centres from philosophical religious socio political and planning perspectives Recognizing the need to better link the humanities with public policy **The Natural City** offers unique insights for the development of an alternative vision of urban life **Revised Laws of Nevada, Containing the Statutes of a General Nature from 1913 to 1919, with Annotations from Volumes 31 to 42, Nevada Reports, and of Federal Cases Originating in Nevada During the Same Period** Nevada, 1920 Code of Washington Containing All Acts of a General Nature Washington (State)., 1881 **A Compilation of the Tennessee Statutes of a General Public Nature, in Force on the First Day of January, 1919** Tennessee, 1917 A Compilation of the Tennessee Statutes of a General Public Nature, in Force on the First Day of January, 1917 Tennessee, 1918 **Public and Permanent Statutes of a General Nature** Tennessee, 1904 The diuturnal theory of the earth; or, Nature's system of constructing a stratified physical world William Andrews, 1900 **The Revised Statutes and Other Acts of a General Nature of the State of Ohio** Ohio, 1879 **Revised Laws of Nevada, Containing State, Statutes of a General Nature from 1861, Revised to 1912, and Pertinent Acts of Congress, with Annotations from Volumes 1 to 34, Nevada Reports, and from Federal and State Decisions, Prepared Under Legislative Enactment** Nevada, 1912 **Technonatures** Damian F. McGrath,2003 Written by Alister McGrath one of the world s best known theologians these volumes present the most extended and systematic exploration of the relation between Christian theology and the natural sciences ever undertaken Thoroughly ecumenical in approach A Scientific Theology is a significant work for Catholic Orthodox and Protestant readers Each volume is marked throughout by a sustained critical engagement with the history and philosophy of the natural sciences and by a passionate commitment to the legitimacy of theology as an academic discipline Volume 3 provides a fresh evaluation of the origins and place of theory in Christian theology Dealing with the question of how reality is represented in Christian theology and the natural sciences theory is understood as a response to experienced reality a communal beholding of reality Against those who might favor a non dogmatic Christianity McGrath argues that the Christian community is under an intellectual obligation to give an account of what it corporately beholds The many theoretical issues addressed in this volume include the manner in which closure is secured in theological theorizing the problem of reductionism in theoretical analysis the explanatory dimensions of theology the implications of the stratification of reality for its representation the place of metaphysics in Christian theology and the nature of revelation itself Book jacket **The District Reports of Cases Decided in All the Judicial Districts of the State of Pennsylvania** Pennsylvania.
