Contesting Public Sector Reforms Critical Perspectives International Debates:

Contesting Public Sector Reforms Geoffrey E. Wood, P. James, I. Roper, Pauline Dibben, 2004-04-30 This edited volume provides a critical and international analysis of the public sector through theoretical debates empirical issues and regional studies It begins by reassessing the public choice theoretical paradigm the implications of New Public Management the current crisis of democracy and ways of mediating market pressures It then investigates recent developments in ethics service provision industrial relations and the nature of work before examining critical issues in countries and regions from both the developed and developing world and reflecting on the way forward

Democratizing Public Governance in Developing Nations Shamsul M. Haque, Anastase Shyaka, Gedeon M. Mudacumura, 2017-07-14 This edited volume brings together critical insights that address the multifaceted problems of governance and democracy in the developing regions with specific reference to Africa It explores both the externally prescribed and home grown governance initiatives geared toward democracy and development and suggests alternative strategies to improve the processes and institutions of governance The chapters in the book deal with major concerns related to governance including the strengths and limits of existing policies and practices and the structure and role of state and non state institutions in promoting democracy and participation All these issues in general have great significance for realizing an authentic and enduring mode of democratic governance in the developing world

Challenges to Democratic Governance in Developing Countries Gedeon Mudacumura, Göktuğ Morçöl, 2014-01-04 Despite the large amounts of human and financial resources invested to foster democratic governance in developing countries statistics show that the majority of these countries have not yet achieved significant improvements in living standards While some regions make strides towards improving the living conditions of their citizens Sub Saharan Africa for instance is still trapped in poverty with more than 40% of its 600 million people living below the internationally recognized absolute poverty line of one US dollar per day Poor governance and corruption should be highlighted as the most important systemic factors contributing to poverty in developing countries As a result the institutional foundations of these countries are weakened public funds are misappropriated and policies and programs aimed at reducing poverty and fostering sustainable economic growth are undermined It is therefore not surprising that a 2008 Transparency International report found a direct link between corruption and the failure of the societal institutions designed to achieve the Millennium Development Goals in the majority of developing countries This book investigates the problems of democratic governance particularly as they relate to corruption and also whether democracy should be based on universal principles or local context and historical factors It also analyses the rule of law in promoting democratic governance and curbing corruption and if governmental non governmental organizations and civil societies are effective in promoting democratic governance and curbing corruption This book will go beyond identifying the challenges and offer plausible solutions that could be adapted to various developing countries It is premised on the importance of bridging theory and

practice which has been lacking in most local and international development publications making of interest to scholars and policy makers alike concerned with public administration in developing countries **Confronting New Realities** Juma Volter Mwapachu, 2005 In 1986 Tanzania agreed with the IMF and the World Bank to pursue robust social and economic reforms in light of the serious decline in the performance of the economy with the objective of achieving sustainable economic growth At a political level a multi party system was introduced and the first multi party elections held since 1962 took place in 1995 and again in 2005 This book examines in considerable depth the political and economic changes that have taken place in this period of reform It highlights both the achievements and the challenges that remain particularly those brought about by new and dynamic phase of globalisation in areas such as trade and investment The author articulates perspectives on the democratisation and governance trajectories the country should pursue to attain a more prosperous economic status whilst sustaining the unity peace and diversity that have characterised the country since independence
