Contextualism In Philosophy Knowledge Meaning And Truth:

Contextualism in Philosophy Gerhard Preyer, Georg Peter, 2005-08-11 In epistemology and in philosophy of language there is fierce debate about the role of context in knowledge understanding and meaning Many contemporary epistemologists take seriously the thesis that epistemic vocabulary is context sensitive This thesis is of course a semantic claim so it has brought epistemologists into contact with work on context in semantics by philosophers of language This volume brings together the debates in a set of twelve specially written essays representing the latest work by leading figures in the two fields All future work on contextualism will start here [The Routledge Handbook of Epistemic Contextualism](#)

Jonathan Jenkins Ichikawa, 2017-03-16 Epistemic contextualism is a recent and hotly debated topic in philosophy Contextualists argue that the language we use to attribute knowledge can only be properly understood relative to a specified context How much can our knowledge depend on context Is there a limit and if so where does it lie What is the relationship between epistemic contextualism and fundamental topics in philosophy such as objectivity truth and relativism The Routledge Handbook of Epistemic Contextualism is an outstanding reference source to the key topics problems and debates in this exciting subject and is the first collection of its kind Comprising thirty seven chapters by a team of international contributors the Handbook is divided into eight parts Data and motivations for contextualism Methodological issues Epistemological implications Doing without contextualism Relativism and disagreement Semantic implementations Contextualism outside knows Foundational linguistic issues Within these sections central issues debates and problems are examined including contextualism and thought experiments and paradoxes such as the Gettier problem and the lottery paradox semantics and pragmatics the relationship between contextualism relativism and disagreement and contextualism about related topics like ethical judgments and modality The Routledge Handbook of Epistemic Contextualism is essential reading for students and researchers in epistemology and philosophy of language It will also be very useful for those in related fields such as linguistics and philosophy of mind **Epistemology: Contexts, Values, Disagreement**

Christoph Jäger, Winfried Löffler, 2013-05-02 This volume collects papers that were presented at the 34th International Ludwig Wittgenstein Symposium 2011 in Kirchberg am Wechsel Austria They focus on five key debates in contemporary epistemology Does the term to know vary its meaning according to features of the contexts in which it is uttered What role may epistemic virtues play in our cognitive activities What is the surplus value of having knowledge instead of mere true belief What is the structure and significance of testimonial knowledge and belief And when is disagreement rational especially if it occurs among epistemic peers In addition a section is devoted to novel discussions of the work of Wittgenstein Papers by A Beckermann E Brendel W Davis C Elgin S Goldberg J Greco A Kemmerling H Kornblith M Solomon M Williams and many others **Knowledge Ascriptions**

Jessica Brown, Mikkel Gerken, 2012-05-31 A team of world class philosophers offer novel approaches to the complex debate of how we ascribe knowledge to subjects They address the methodological

issues that knowledge ascriptions raise and explore three recent approaches to knowledge ascriptions a linguistic turn a cognitive turn and a social turn Transient Truths Berit Brogaard,2012-04-12 What are the things that we assert believe and desire The orthodox view among philosophers is eternalism these are contents that have their truth values eternally This book provides a defense of the opposing view temporalism these are contents that can change their truth values along with changes in the world Modeling and Using Context Boicho Kokinov,Daniel C. Richardson,Thomas R. Roth-Berghofer,Laure Vieu,2007-08-28 Here are the refereed proceedings of the 6th International and Interdisciplinary Conference on Modeling and Using Context The 42 papers deal with the interdisciplinary topic of modeling and using context from various perspectives including computer science artificial intelligence cognitive science linguistics organizational science philosophy and psychology In addition readers discover applications in areas such as medicine and law Semantics. Volume 3 Claudia Maienborn,Klaus von Heusinger,Paul Portner,2012-12-19 No detailed description available for SEMANTICS MAIENBORN ET AL BD 33 3 HSK E BOOK The Case for Contextualism Keith DeRose,2011-05-05 It s an obvious enough observation that the standards that govern whether ordinary speakers will say that someone knows something vary with context What we are happy to call knowledge in some low standards contexts we ll deny is knowledge in other high standards contexts But do these varying standards for when ordinary speakers will attribute knowledge and for when they are in some important sense warranted in attributing knowledge reflect varying standards for when it is or would be true for them to attribute knowledge Or are the standards that govern whether such claims are true always the same And what are the implications for epistemology if these truth conditions for knowledge claims shift with context Contextualism the view that the epistemic standards a subject must meet in order for a claim attributing knowledge to her to be true do vary with context has been hotly debated in epistemology and philosophy of language during the last few decades In The Case for Contextualism Keith DeRose offers a sustained state of the art exposition and defense of the contextualist position presenting and advancing the most powerful arguments in favor of the view and against its invariantist rivals and responding to the most pressing objections facing contextualism **The Philosopher's Index** ,2008 Vols for 1969 include a section of abstracts Epistemologia ,2006 Context, Truth and Objectivity Eduardo Marchesan,David Zaperro,2018-10-03 The claim according to which there is a categorical gap between meaning and saying between what sentences mean and what we say by using them on particular occasions has come to be widely regarded as being exclusively a claim in the philosophy of language The present essay collection takes a different approach to these issues It seeks to explore the ways in which that claim as defended first by ordinary language philosophy and more recently by various contextualist projects is grounded in considerations that transcend the philosophy of language More specifically the volume seeks to explore how that claim is inextricably linked to considerations about the nature of truth and representation It is thus part of the objective of this volume to rethink the current way of framing the debates on these issues By framing the debate in terms of an opposition

between ideal language theorists and their semanticist heirs on the one hand and communication theorists and their contextualist heirs on the other one brackets important controversies and risks obscuring the undoubtedly very real oppositions that exist between different currents of thought

New Waves in Epistemology Vincent F. Hendricks, Duncan Pritchard, 2008-01-15 In the past thirty years epistemology has been one of the fastest moving disciplines in philosophy The reason for the rapid advancement is partly due to the fact that various schools and movements inside epistemology have developed different answers to classical epistemological problems and partly due to the fact that formal methods from logic probability theory and computability have been utilized to deal with many of the same issues and used for applications outside traditional epistemology *New Waves in Epistemology* reflects these changes by letting up and coming scholars describe the current trends as well as discussing the prospects for future development

Epistemic Contextualism Peter Baumann, 2016 Peter Baumann develops and defends a distinctive version of epistemic contextualism the view that the truth conditions or the meaning of knowledge attributions can vary with the context of the attributor Baumann discusses problems and objections and provides an extension of contextualism beyond epistemology

Proceedings of the North East Linguistic Society 37 Martin Walkow Eds, 2008 NELS 37 the thirty seventh annual meeting of the North East Linguistic Society was hosted by the University of Illinois at Urbana Champaign on October 13 15 2006 These two volumes of conference proceedings edited by Emily Elfner and Martin Walkow and published by the Graduate Linguistic Student Association of the University of Massachusetts at Amherst contain the forty seven presented papers that were submitted for publication Volume 2 this volume contains twenty three papers from the main session
