Contracts Brian A. Blum, Amy C. Bushaw, 2022-01-31 Contracts Cases Discussion and Problems Fifth Edition

Contracts Brian A. Blum, 2008 *Contracts Cases Discussion and Problems Fourth Edition* is known for its strikingly clear straightforward text that illuminates cases as well as concepts and theory. The book focuses on modern cases to expose students to contemporary contract law but it also includes many important or iconic older cases. Numerous problems ranging from simple to complex supplement cases and introduce topics taught most effectively through problems. The casebook's traditional organization begins with formation and then corresponds to the sequence followed by the Restatement 2nd of Contracts and treatises. Procedural issues are highlighted when presented by the cases and transactional issues such as drafting, client counseling and negotiation are raised through the use of questions and small exercises throughout the text. Strengthening the text's focus on contemporary methods of contracting, modern issues in standard contracts are explored along with contracts entered into electronically. International and comparative material offers alternative approaches for students to consider such as those taken by the United Nations Convention on Contracts for the International Sale of Goods (CISG) and the UNIDROIT Principles of International Commercial Contracts. Key Features: A continuing focus on contracting via electronic media. An increase in the number of problems and the conversion of former case notes into problems. New multiple choice self assessment questions for each chapter at the end of the book.
