FitzMaurice,2012-04-07 This book is about the work of Carl Rogers not the life of Carl Rogers The personal problems Carl Rogers had with alcohol and his marriage have nothing to do with his counseling method This brief book focuses on the method of counseling that he invented Method and technique are not to be confused with counseling theory A counseling theory is a set of guiding principles that structure the course of counseling A method or technique is a strategy for eliciting a response from a client Counseling theories therefore provide general directions for achieving specific goals while methods or techniques are specific strategies for promoting a change or curative response from a client Carl Rogers gave the counseling world its most effective efficient and advanced method Unfortunately Rogers feared to face the true nature of his method and buried it under false philosophy and theory that diametrically opposed it Rogers betrayal of his method has led to a corruption of his method causing it to be diluted at best and in many cases lost We must separate the theory of Carl Rogers from the method of Carl Rogers to resurrect and preserve his superior method This book will help you discover the true nature of the method But ultimately you must work this out for yourself You must again watch the videos of Rogers at work You must again analyze his method You must experiment and test until you are certain from your own examination what the nature of the method is If you wish to debate Rogers theories then you are missing the point The Rogerian Method works wonders and needs to be salvaged and seen for what it is separate from all theory and philosophy *Control Freak* Jared Lee Hanson,2002-09-13 The universe is filled with incredible power Over the last century alone combustion electricity and lift have completely altered the course of humanity These and other forces have taken us to the moon and beyond At the same time they have laid waste to entire cities and abruptly ended millions of lives One force among these has the ability to control them all Ironically it is the most powerful yet the least understood As with fire this awesome power can only be controlled when you understand the basics of how it works Like electricity it can do things that you thought were impossible And similar to lift it can send you flying through the clouds to heights you never imagined Once you learn the basics you won't need to freak out any more over control Anything you want will be within reach without the use of force deception bribery or any other form of manipulation If you're not already living your dreams it's because something is short circuiting your ability to harness this great power Come with me and we'll find out what it is Let your journey of discovery begin NOW
