A Medicated Empire Timothy M. Yang, 2021-06-15 Winner of the 2022 Hagley Prize in Business History In A Medicated Empire Timothy M Yang explores the history of Japan s pharmaceutical industry in the early twentieth century through a close account of Hoshi Pharmaceuticals one of East Asia s most influential drug companies from the late 1910s through the early 1950s Focusing on Hoshi s connections to Japan s emerging nation state and empire as well as the ways in which it embraced an ideology of modern medicine as a humanitarian endeavor Yang shows how the industry promoted a hygienic middle class culture that was part of Japan s national development and imperial expansion Yang demonstrates that the company s fortunes had less to do with scientific breakthroughs and medical innovations than with Japan s web of social political and economic relations He lays bare Hoshi s business strategies and its connections with politicians and bureaucrats and he describes how public health authorities dismissed many of its products as placebos at best and poisons at worst Combining global histories of business medicine and imperialism A Medicated Empire illuminates how the development of the pharmaceutical industry simultaneously supported and subverted regimes of public health at home and abroad

prestigious restaurants they soon discover another reality in common foodservices and are viewed as having made an egotistical professional choice. Regardless of the improvement in their working conditions their identity is distorted. This book describes foodservices as a whole including international and inter industry comparisons in the sociological field of gastronomical professionals in an attempt to analyze their identities in different stages and diversities. *Heroin Alex Mold*, 2008. Heroin often viewed as the hardest drug looms large in the popular consciousness. Heroin addiction in Britain first began to cause concern during the 1920s yet while one group of doctors regarded the addiction as a disease which required treatment other physicians viewed it as a vice which demanded strict control. The medical community and the government have debated both the definition of addiction medical condition moral failing or social problem and the method of dealing with addiction medical treatment vs legal controls. In *Heroin Alex Mold* examines the interaction of the different approaches to heroin addiction and argues that the treatment of the addiction as a disease and the control of heroin as a social problem could in practice rarely be separated. Treatment became a way of controlling the addiction and the addicts themselves but debates about the nature of addiction treatment and the methods used resulted in politicisation of the topic. During the late 1960s Drug Dependence Units DDUs were established as a means to combine both medical treatment and social control. The British System essentially treated addiction as a disease and offered maintenance the administering of heroin or an opioid substitute on a long term basis as treatment. Maintenance proved to be a source of tension between psychiatrists specialising in addiction treatment and private and general practitioners who operated outside the DDUs. This conflict manifested itself in heated disputes on the pages of medical journals in government committees and in disciplinary hearings before the General Medical Council. The same debates conflicts and tensions which have beset drug addiction treatment since the beginning of the twentieth century persist today. Despite international laws and codes concerning addiction and treatment there is much that is peculiar and significant about the British case. Drawing on government papers private archival collections medical journals oral history sources and official reports Mold presents the first detailed historical analysis on the subject. Historians sociologists addiction specialists and contemporary policy makers can look to this groundbreaking study to learn from the past and shape the future response to heroin addiction. *Book Review Index*, 2003 Vols 8 10 of the 1965 1984 master cumulation constitute a title index. **American Book Publishing Record**, 2000-07. **The Social History of Alcohol Review**, 1988. **Deutsche Nationalbibliographie und Bibliographie der im Ausland erschienenen deutschsprachigen Veröffentlichungen**, 1996. **Brinkman's cumulatieve catalogus van boeken**, 2000.
