and local agencies businesses and economic development organizations and local and regional planning authorities and to gather information on users experiences with the first full releases of ACS products In addition to covering innovative uses of the information now available on a continuous basis in the ACS the workshop gave expression to the challenges and burdens associated with the survey the time burden places on respondents the challenges of explaining and interpreting estimates with increased levels of variability and the privacy and confidentiality implications of some of the ACS content Benefits Burdens and Prospects of the American Community Survey Summary of a Workshop provides a factual summary of the workshop proceedings and hints at the contours of the ACS user constituency providing important input to the ongoing review and refinement of the ACS program *Science Instruction in the Middle and Secondary Schools* Eugene L.
