A Writer's Reference with Writing about Literature Diana Hacker, Nancy Sommers, 2024-10-01 Your college writing will be one way you put your ideas and your self out into the world A Writer's Reference helps you strengthen your skills for that important work It helps you develop a range of literacies writing reading thinking collaborating using information and working responsibly with AI Acknowledging that generative AI tools are part of many writer's processes A Writer's Reference teaches concrete flexible strategies for applying your human intelligence to artificial intelligence see C1 a and the AI tips throughout It helps writers to see AI not as a

substitute but a starting point because if you've heard the expression you do know that AI simply can't do you. Not authentically. It seems magical but in fact it understands nothing, can't think, and won't ever replace the human voice your readers will want to hear.

Breaking the Cycle of Dependency in K-12 Education: Using Cognitive Science to Guide Instruction Derek Regensburger, 2025-03-04. This book seeks to help teachers convert dependent learners into independent learners who can take control of their own learning. Part One instructs teachers on the conditions that create dependent learners as well as the principles of human intelligence and learning. It discusses some of the myths and controversies concerning these topics. It also analyzes the cognitive science research on how students learn and what educational practices best promote new learning. The second half of the book addresses how teachers can create and implement classroom practices that promote the principles of learning and convert dependent learners into independent ones. The book offers a holistic approach to teaching focusing on classroom management and relationship building, writing and oral communication, lesson design and assessment and feedback. It also examines how direct instruction methods can be used in conjunction with active learning strategies like project-based learning to improve student retention of knowledge and increase motivation and engagement.
