The new state of the art chapter on digital marketing digs deeply into two new frontiers of marketing which have significant impact on contemporary social life: influencer marketing and online gaming. Other new topics help us to understand how marketing can perpetuate local and global inequality through creating and sustaining hierarchies of knowledge and influencing norms of race, disability, gender and sexual orientation. *Contemporary Issues in Branding* Pantea Foroudi, Maria Palazzo, 2019-12-06 This book provides students and academics with a comprehensive analysis of the theory and practice of branding. The challenge to explore new and effective ways of harnessing the power of communication to engage with company stakeholders in interactive, immediate and innovative ways is ever present in the digital era. Digital marketing and social media create opportunities for managers to communicate their brand's identity to their consumers and stakeholders. Yet limited empirical research exists to elucidate these issues and less still that assists our understanding of branding issues at an international level. Recognising the complexity and plurality at the heart of the branding discipline, this text explores the relationship between brand identity and stakeholders. Working through building, designing and maintaining a brand, the authors consider such aspects as strategic planning and campaign management, research and measurement, media relations, employee communication, leadership and change communication and crisis branding. Critically differing methods and approaches applied to branding and communication research design are assessed, including both qualitative and quantitative methods. Proposing a mixture of theory and practice with international case studies, this book is an invaluable companion for advanced undergraduate and postgraduate students, academics of marketing and strategic brand management as well as managers and decision makers globally. **Critical Marketing** Mark Tadajewski, Douglas Brownlie, 2009-12-21 Focusing on a new and developing field, this text provides an overview of the
