Contested Christianity Timothy Larsen, 2004 This volume explores the cultural political and intellectual forces that helped define nineteenth century British Christianity Larsen challenges many of the standard assumptions about Victorian era Christians in their attempts to embody and their theological commitments He highlights the way in which Dissenters and other free church Evangelicals employed the full range of theological resources available to them to take stands that the wider culture was still resisting e g evangelical nonconformists enfranchising women siding with the black population of Jamaica in opposition to their own colonial governor championing the rights of Jews Roman Catholics and atheists These stances belie the stereotypes of Victorian Evangelicals currently in existence and properly shift the focus to Dissent to plebeian culture to social contexts and to the cultural and political consequences of theological commitments This study brings freshness and verve to the study of religion and the Victorians bearing fruit in a range of significant findings and connections
