# CONTESTED LIVES

The Abortion  
Debate in an  
American  
Community

**FAYE D. GINSBURG**

# Contested Lives The Abortion Debate In An American Community

**Victor M. Corman**

## **Contested Lives The Abortion Debate In An American Community:**

*Contested Lives* Faye D. Ginsburg, 1998-09-01 Based on the struggle over a Fargo North Dakota abortion clinic *Contested Lives* explores one of the central social conflicts of our time Both wide ranging and rich in detail it speaks not simply to the abortion issue but also to the critical role of women s political activism A new introduction addresses the events of the last decade which saw the emergence of Operation Rescue and a shift toward more violent even deadly forms of anti abortion protest Responses to this trend included government legislation a decline in clinics and doctors offering abortion services and also the formation of Common Ground an alliance bringing together activists from both sides to address shared concerns Ginsburg shows that what may have seemed an ephemeral artifact of Midwestern feminism of the 1980s actually foreshadowed unprecedented possibilities for reconciliation in one of the most entrenched conflicts of our times

*Contested Lives* Faye D. Ginsburg, 1989 Looks at abortion activists in Fargo North Dakota discusses the history of female based social movements and describes the influence of sex roles in society **Gadamer and Law** Francis J. Mootz Iii, 2017-07-05 Hans Georg Gadamer s philosophical hermeneutics is especially relevant for law which is grounded in the interpretation of authoritative texts from the past to resolve present day disputes In this collection leading scholars consider the importance of Gadamer s philosophy for ongoing disputes in legal theory The work of prominent philosophers including Fred Dallmayr P Christopher Smith and David Hoy is joined with the work of leading legal theorists such as William Eskridge Lawrence Solum and Dennis Patterson to provide an overview of the connections between law and Gadamer s hermeneutical philosophy Part I considers the relevance of Gadamer s philosophy to longstanding disputes in legal theory such as the debate over originalism the rule of law and proper modes of statutory and constitutional exegesis Part II demonstrates Gadamer s significance for legal theory by comparing his approach to the work of Nietzsche Habermas and Dworkin

**Modern Motherhood** Jodi Vandenberg-Daves, 2014-05-26 How did mothers transform from parents of secondary importance in the colonies to having their multiple and complex roles connected to the well being of the nation In the first comprehensive history of motherhood in the United States Jodi Vandenberg Daves explores how tensions over the maternal role have been part and parcel of the development of American society *Modern Motherhood* travels through redefinitions of motherhood over time as mothers encountered a growing cadre of medical and psychological experts increased their labor force participation gained the right to vote agitated for more resources to perform their maternal duties and demonstrated their vast resourcefulness in providing for and nurturing their families Navigating rigid gender role prescriptions and a crescendo of mother blame by the middle of the twentieth century mothers continued to innovate new ways to combine labor force participation and domestic responsibilities By the 1960s they were poised to challenge male expertise in areas ranging from welfare and abortion rights to childbirth practices and the confinement of women to maternal roles In the twenty first century Americans continue to struggle with maternal contradictions as we pit an idealized role for mothers in children s

development against the social and economic realities of privatized caregiving a paltry public policy structure and mothers extensive employment outside the home Building on decades of scholarship and spanning a wide range of topics Vandenberg Daves tells an inclusive tale of African American Native American Asian American working class rural and other hitherto ignored families exploring sources ranging from sermons medical advice diaries and letters to the speeches of impassioned maternal activists Chapter topics include inventing a new role for mothers contradictions of moral motherhood medicalizing the maternal body science expertise and advice to mothers uplifting and controlling mothers modern reproduction mothers resilience and adaptation the middle class wife and mother mother power and mother angst and mothers changing lives and continuous caregiving While the discussion has been part of all eras of American history the discussion of the meaning of modern motherhood is far from over *Local Actions* Melissa Checker, Maggie Fishman, 2004-02-25 Activism is alive and well in the United States according to Melissa Checker and Maggie Fishman It exists on large and small scales and thrives in unexpected places Finding activism in backyards art classes and urban areas branded as ghettos these anthropologists explore the many routes people take to work toward social change Ten absorbing studies present activist groups across the country from transgender activists in New York City to South Asian teenagers in Silicon Valley to evangelical Christians and Palestinian Americans Each one examines a social change effort as it unfolds on the ground Through their anthropological approach these portraits of American society suggest the inherent possibilities in identity based organizing and offer crucial in depth perspectives on such hotly debated topics as multiculturalism and the culture wars the environment racism public education Native American rights and the Christian right Moving far beyond the walls of academia the contributors address the complex issues that arise when researchers have stakes in the subjects they study Scholars can play multiple roles in the activist struggles they recount and these essays illustrate how ethnographic research itself can become a tool for activism

**Cultural Strategies of Agenda Denial** Roger W. Cobb, Marc Howard Ross, 1997 This is the first book devoted to examining why some issues proposed by aggrieved individuals or groups are denied access to policy agendas The book contains case studies that look at the policy process from the perspective of the strategies opponents often use to ensure agenda denial strategies usually motivated by perceived threats to widely held world views and identities **Religious Liberty in America** Louis Fisher, 2002 It is often assumed that the judiciary especially the Supreme Court provides the best protection of our religious freedom Louis Fisher however argues that only on occasion does the Court lead the charge for minority rights More likely it is seen pulling up the rear By contrast Congress frequently acts to protect religious groups by exempting them from general laws on taxation social security military service labor and countless other statutes Indeed legislative action on behalf of religious freedom is an American success story but one that renowned constitutional authority Fisher argues has been poorly understood by most of us Taking in the full span of American history Fisher demonstrates that over the course of two centuries of American government Congress has often been in the forefront of establishing and

protecting rights that have been neglected denied or unrecognized by the Court and that statutory provisions far outstrip in both number and importance the court cases that have expanded religious rights In this concise and insightful book Fisher presents a series of important case studies that explain how Supreme Court rulings on religious liberty have been challenged and countermanded by public pressures legislation and independent state action He tells how religious groups interested in securing the rights of conscientious objectors received satisfaction by taking their cases to Congress not the courts how public uproar over a 1940 Supreme Court ruling sustaining compulsory flag salutes resulted in a court reversal and how Congress intervened in a 1986 ruling upholding a military prohibition of skullcaps for Jews By describing other controversies such as school prayer Indian religious freedom the religious use of peyote and statutory exemptions for religious organizations Fisher convincingly demonstrates that we must understand the political and not just the judicial context for the safeguards that protect religious minorities As this book shows the origin and growth of an individual's right to believe or not believe and the securing of that right has occurred almost entirely outside the courtroom *Religious Liberty in America* persuasively challenges judicial supremacists on church state issues and provides a highly readable introduction for all students and citizens concerned with their right to believe as they wish      **Book Review Digest** ,1990 Excerpts from and citations to reviews of more than 8 000 books each year drawn from coverage of 109 publications *Book Review Digest* provides citations to and excerpts of reviews of current juvenile and adult fiction and nonfiction in the English language Reviews of the following types of books are excluded government publications textbooks and technical books in the sciences and law Reviews of books on science for the general reader however are included The reviews originate in a group of selected periodicals in the humanities social sciences and general science published in the United States Canada and Great Britain Publisher      *Feminist Frontiers IV* Laurel Richardson,Verta A. Taylor,Nancy Whittier,1997 A collection of classic feminist readings this text presents the full diversity of women's issues and experiences exploring their similarities as well as their differences It offers analyses of the causes and consequences of gender inequality and introduces students to feminist theory and methodology A sociological analysis opens each of the four parts and 11 sections of the book      **Daily Journal Report** ,1991      *Taking sides* George McKenna,Gloria W. Bird,1993      **Taking Sides** Stephen Satris,1994 *Taking Sides* Clashing Views on Moral Issues Tenth Edition is a debate style reader designed to introduce students to controversies in moral philosophy The readings which represent the arguments of leading philosophers and commentators reflect a variety of viewpoints and have been selected for their liveliness and substance and because of their value in a debate framework

*Women's America* Linda K. Kerber,Jane Sherron De Hart,2000 Featuring a mix of primary source documents articles and illustrations *Women's America* Refocusing the Past has long been an invaluable resource Now in its sixth edition the book has been extensively revised and updated to cover recent events in American women's history It provides many new selections from leading theorists and historians and restores several readings that were cut from the fifth edition Successfully

classroom tested these new essays offer more material on the impact of ethnicity in American culture the roles that women have played in the creation of male dominated structures and the international dimensions of women s lives The introductory essay has been revised and the bibliography has been updated to take into account the growing body of contemporary literature in the field Women s America is an essential text for courses in women s history and an ideal supplement for more general survey courses on American history Book jacket *National Library of Medicine Current Catalog* National Library of Medicine (U.S.),1990 **Columbia Law Review** ,1995 **Political Contradictions and Moral Dilemmas** Crystal Anne McCartney,1991 Who Chooses? Simone M. Caron,2008 This book is the first to synthesize the intertwined histories of contraception sterilization and abortion in nineteenth and twentieth century America Caron skillfully blends the local study of reproductive history in the state of Rhode Island into her thorough re telling of the larger story that played out on the national stage *The Ethnography of an Anthropology Department (1959-1979)* Melvin D. Williams,2002 This volume traces the history and development of the anthropology department at Pillar University It documents the era and the general University priorities that led to the rise of the department describes the people who made the decisions and why who executed them and who were affected by them It examines the behavioral dynamics of contemporary American society and especially the cultural dialogue between race class and gender **Women's Movements in America** Rita J. Simon,Gloria Danziger,1991-08-30 This work is a survey of the efforts through which women have changed their place in American society from the nation s founding to the present Examining the historical struggle for suffrage legal and property rights and rights in the work place the authors show how these experiences have shaped a contemporary movement for economic political and social equality that has become increasingly independent and less and less likely to place women s issues second to other national concerns The authors recount a history of women activists who repeatedly set aside their own issues in favor of others that seemed more pressing from abolition and preserving the Union to labor solidarity in the 1920s and civil rights and the New Left in the 1960s and 1970s Male domination of these movements and a lack of support for women s issues have been major factors in creating the contemporary feminist philosophy of going it alone The book is divided into three topical sections each of which offers a historical analysis and draws on a variety of sources such as legal statutes and judicial decisions demographic information public opinion polls and biographies and other narrative accounts It is a richly documented resource for courses and research in women s studies sociology politics and U S legal and political history

**Daily Life in the United States, 1960-1990** Myron A. Marty,1997-10-28 For the first time the social history of the United States is examined in four chronological periods 1960 1966 when modern ideals flourished and then began to fade 1967 1974 when cultural changes began to remake America 1975 1980 when the cultural changes led to standoffs between opposing sides and the 1980s when postmodern conditions broadened their influence and discord became more pronounced

## Unveiling the Magic of Words: A Overview of "**Contested Lives The Abortion Debate In An American Community**"

In some sort of defined by information and interconnectivity, the enchanting power of words has acquired unparalleled significance.
