Early Language Learning in Context David Hayes, 2022-08-19 This book critically analyses early school foreign language teaching policy and practice foregrounding the influence of the socioeducational and cultural context on how policies are implemented and assessing the factors which either promote or constrain their effectiveness It focuses on four Asian contexts Malaysia South Korea Sri Lanka and Thailand while providing a discussion of policy and practice in

Canada and Finland as a comparison Concentrating on the state school sector it criticises the worldwide trend for a focus on English as the principal or only foreign language taught in primary schools founded on a rationale that widespread proficiency in English is important for future national success in a globalised economy It maintains that the economic rationale is not only largely unfounded and irrelevant to the language learning experiences of young children but also that the focus on English exacerbates system inequalities rather than contributing to their reduction The book argues for a broader perspective on language learning in primary schools one that values multilingualism and knowledge of regional and indigenous languages alongside a more diverse range of foreign languages This book will appeal to educational policymakers researchers and students interested in early foreign language learning in state educational systems worldwide *Language in Context in TESOL* Joan Cutting, 2014-12-11 This book covers the relevance of theories on language analysis to TESOL showing students how to understand and evaluate TESOL methodology curriculum and materials in terms of theories including conversation structure ideology and power

Foreign Language Learning in the Digital Age Christiane Lütge, 2022-01-31 Foreign Language Learning in the Digital Age addresses the growing significance of diversifying media in contemporary society and expands on current discourses that have formulated media and a multitude of literacies as integral objectives in 21st century education The book engages with epistemological and critical foundations of multiliteracies and related pedagogies for foreign language learning contexts It includes a discussion of how multimodal and digital media impact meaning making practices in learning the inherent potentials and challenges that are foregrounded in the use of multimodal and digital media and the contribution that foreign language education can provide in developing multiliteracies The volume additionally addresses foreign language education across the formal educational spectrum from primary education to adult and teacher education This multifaceted volume presents the scope of media and literacies for foreign language education in the digital age and examples of best practice for working with media in formal language learning contexts This book will be of great interest to academics researchers and post graduate students in the fields of language teaching and learning digital education media education applied linguistics and TESOL

Understanding Language Classroom Contexts

Martin Wedell,Angi Malderez,2013-04-11 Arguably the whole point of education is to effect change in what people know and are able to do Globalization has contributed to a common perception worldwide of the need to introduce changes to the teaching and learning of languages The success of many attempts to do so has been limited by insufficient consideration of implementation contexts Understanding Language Classroom Contexts explores and illustrates how what happens in any language classroom is influenced by and can be an influence on the contexts in which it is situated A clear understanding of these influences is thus the starting point for planning effective change The book considers many visible and invisible features of the multiple layers of any context and provides a framework for understanding the types of factors that may influence whether changes planned by a teacher or externally initiated are likely to be successful The book will help teachers and educational managers or change planners outside the classroom to understand why their classrooms are as they are and so to make informed decisions about what can or cannot or not easily be changed and suggests how any changes might be appropriately managed
