**Contract Law from a Drafting Perspective** Thomas R. Haggard, 2003 This law school casebook takes a student beyond knowledge of the substance of contract principles doctrines and rules It contains a concise review of the contract drafting process and the accepted rules of style and usage with corresponding exercises Students then put this into practice through a series of exercises in which they draft a variety of contract provisions and complete contracts The book is suitable for use as a supplemental text in a first year contracts course or in an upper class course on contract drafting *Contract Law in Perspective* Linda Mulcahy, 2008-08-18 Contract Law in Perspective complements black letter treatments of contract by looking at legal doctrine and statutes in their social political and economic contexts It increases students understanding of the law of contract as well as convinces them why it is so important to us all In addition to describing the key doctrines in the field it explains the ideology behind them and considers the extent to which they serve the needs of the business community and consumers The book broadens understanding and appreciation of the subject by reference to the big ideas in contract theory and how these relate to practice at a level which is suitable for students This fifth edition has been substantially revised and now includes sections on privity and the Rights of Third Parties Act as well as a discussion of the Law Commission's Unfair Terms in Contract draft bill includes new chapter introductions and summaries designed to help students identify the key points and reflect on what they have learnt provides advice on further reading pointing students towards sources for more detailed study now includes additional self test questions for students at the end of each chapter to enable them to consolidate and practice at regular intervals Rules of Contract Law, 2015-2016 Statutory Supplement Charles L.
