Review of MJ. Sinke, 2002 This book was written as a guidebook to illustrate the basic concepts involved in the science of fingerprints and fingerprint identification and according to the author is intended for new and experienced crime scene investigators patrol officers attorneys and students who seek to add fingerprint identification to their investigative skills The guidebook is meant to give a general background in fingerprint concepts and the reader should not view himself or herself as proficient in fingerprint identification after reading this book As the author points out in the introduction On the average it takes about 5 years of training and fieldwork to be considered a proficient and experienced fingerprint specialist At the very least a fingerprint identification expert should successfully complete a two to three year training program in all facets of fingerprints at a qualified training laboratory under the guidance of court recognized experts to be considered an expert in latent prints The author correctly points out that becoming proficient in the area of fingerprints is basically a learned experience from on the job training but that the basis for fingerprint identification and advances in processing techniques makes it desirable to have knowledge in scientific disciplines
