Teaching Tourism Edelheim, Johan, Joppe, Marion, Flaherty, Joan, 2022-02-22 Tourism as an activity is increasingly being criticised for its exploitative and extractive industrial approaches to business. Yet it has the power to transform and to regenerate societies, cultures, and the environment. The desire to explore the world around us is deeply embedded in many people's psyche, but it comes at a cost to the environment and often to the residents of the visited communities. Much of tourism education has been closely linked to preparing students for future professional practice, but the challenges and opportunities linked to its consumption require that its future leaders must exhibit very different values and understandings to tackle ever more complex and wicked problems from which tourism cannot dissociate itself. This compilation of values-based learning experiences can be adapted to suit the needs and disposition of individual instructors and aims not only to engage students in the subject matter but also deepen their understanding of its complexity and interconnectivity and help them become global citizens that lead lives of consequence. Taming the Turbulence in Educational Leadership Jennifer D. Klein, 2025-09-08 Learner-centered leadership grounded in courage, integrity, and love for every child. The pressures of today's

political and cultural climate have created unprecedented roadblocks for school leaders striving to ensure success for all students. With mounting challenges from communities, conservative legislation, and misconceptions about student-centered instruction and inclusion efforts, leaders often feel isolated and threatened in their efforts to prioritize what learners need most. Drawing on interviews with 67 education leaders around the world, *Taming the Turbulence in Educational Leadership* is a practical handbook offering strategies to drive equity-focused and student-centered transformation even in the face of opposition. Additional features include approaches to foster trust and build relationships across the campus and community to overcome resistance; strategies to leverage data include learner, teacher, and parent voices and use intentional communication for effective decision making; tools for preparing teachers adapting systems and protecting staff as they implement equity-centered initiatives; protocols, reflective questions, and worksheets to help schools determine readiness and create actionable plans. Rooted in real-world stories, this book offers solidarity and actionable strategies to education leaders committed to centering the needs of all learners in increasingly polarized societies.
